Fire Safety Seminar

Fire Risk Assessment – Are We Reducing the Risk?

We are delighted to invite you to our annual fire safety seminar.

This is a rare opportunity to be presented with case studies of three of the most significant fires affecting residential premises in the UK in the past 10 years. The fire at the Rosepark Care Home in South Lanarkshire led to the deaths of 14 elderly residents in 2004. In 2009, the fire at Lakanal House in Southwark claimed the lives of 6 people, and more recently in 2010, 2 fire fighters lost their lives at a fire in the Shirley Towers residential block in Southampton.

Fire risk management of residential premises on a large scale has evolved since the introduction of the Regulatory Reform (Fire Safety) Order 2005. Recent landmark fires have highlighted clear deficiencies but are the lessons being learnt? We will present an in depth analysis of all three fires, by experts who have a detailed understanding of the events - Colin Todd, an expert witness in the Rosepark Care Home Fatal Accident Inquiry, David Crowder (BRE) an expert witness at the Lakanal House Inquest, and members of the Hampshire Fire and Rescue Service.

We hope you are able to join us, network over a buffet lunch and post event drinks and listen to the leading voices in the fire safety profession. Our seminar is free of charge but places are on a first-come, first-served basis so please RSVP as soon as possible.

When?

Thursday 5th December 2013 - 9.45am to 6.30pm (including a buffet lunch and post event drinks)

Where?

Savills, 33 Margaret Street, London, W1G 0JD (nearest tube Oxford Circus)

Who should attend?

The seminar is ideal for anyone responsible for fire safety within an organisation. We are specifically concentrating on residential fires and thus it is particularly relevant to members of local authorities, housing associations, other housing providers and enforcement officers.

Please RSVP if you would like to attend.
