File Number: $12 / 20696 \quad$ Sheet 1 of 1
This schedule should be read in conjunction with the Authority's leiter dated $24^{\text {th }}$ March 2014.
The condition(s) specified in the Regulatory Reform (Fire Safety) Order 2005, were being contravened and the foilowing step(s) neeo'(s) to be taken in order to comply with the above legislation:

| Article | Area of Concern | Steps Considered necessary to remedy the contravention. |
| :---: | :---: | :---: |
| Afticle 1 1(7) | Failure in the effective monitoring of preventive and protective measures. For Example. A significant number (approx. 25\%) of automatically ooening vents within the common parts of the premises were found not to be in working order. No suitable system of monitoring was in evidence to identify deficiencies with the smoke ventilation system. | Implement effective monitoring of preventive and protective measeres. |
| Article 17(1) | Failure to ensure that the premises and any facilities. equipment and devices are maintained in an efficient state, in effective working order and in good repair. Approximately $20 \%$ of Emergency Lighting Luminaires did not appear to be in working condition as LED indicators were not lit. <br> Approximately $25 \% \mathrm{AOV}$ ventilation units within the common residential lobbies were not held in the closed position indicating the system has not been maintained in effective working condition. | Ensure that adequate maintenance systems are in place to ensure that the premises and any facilities, equipment and devices are maintained in an efficient state, in effective working order and in good repair. |
| Article 21 | Failure to ensure employees receive adequate safety training. Staiff on site did not appear familiar with actions to be taken in response to the fire safety system Alarm and Indicator panels situaled in and around the reception area. At the time of audit a detector in an adjacent block had been sent | Implement/review training programme to ensure employees receive adequate safety training. |
