### **HIU location**

Mr Barakat raised the issue of the HIU in his flat. He wants it to be located in the kitchen. However, works have already commenced to install it in the hallway. The agreement is that the works underway in the hallway should be complete to ensure that heating and hot water services are reinstated as quickly as possible. The option of relocating some HIU's will be considered once we know how many residents want this works and we can understand the costs.

### **Use of Community Room**

Access to and future use of the Community Room will be put on a future agenda.
