Dear both

As discussed, do you want to write them a strong letter recommending replacement? Rydon will fit them if they are called back soonest.

I note that this has been written down in our clerk of works handover sheets.

I attach the window booklet that the resident has been given, which notes clearly that the TMO do not recommend the windows are fully open unless being cleaned. The restrictors are important for the residents safety.

Thanks

Hi Claire,

On the final inspection with Jon at 171 Grenfell Tower this morning, we noticed that 2No. window restrictors were missing. The resident has told us that they removed them themselves and refused to have them fitted back.

Kind Regards,
