Importance: High

Categories: Red Category

Draft attached for:

- What announcement could say
- What update we could give to ministers
- How the meeting might run.

Given pressure to say something at ministerial meeting at 3.30, immediate comments please.

Need to decide whether an announcement tonight is dependent on a name. If it is, that is our top priority.

Following Melanie's steer we are generating a list of HA Chief Execs, in discussion with David Orr.

Yes that's fine. We need to be communicating with people today about what we are planning.

Ok. What do you need?

Half a dozen bullets on latest proposition?

Have met with Melanie and am writing up her proposition but not yet checked back in with her.

Latest on our conversations:

Alok should convene key players on Monday to kick this off. [Q – should that be sooner?]
MD wants LGA and NHF to lead for their sectors in gathering information and disseminating advice.
We will facilitate the right advice from technical experts but do not *give* advice.
Compared to earlier discussions, MD wants less doing, more convening, esp on data etc.
