

MM 14/06/17.

Incident no 076029-14062017

Toc 00.55hrs 14/06/17

Flat 16 Grenfell Tower

Lancaster west estate

W11 1TG

Adam Clarke H34 wimbledon Red water 19 Years

at base Station mobilised 02.20

Riding o/c of H346

approached and parked in duxford street

Scene of arrival was bad. large amount and number of floors alight.

my roll, got split from crew almost immediately, was then getting asked to do specific jobs one of which was to pass ASG notes to bridgehead, then remove a female casualty and handed her over to LAS.

I then managed to get my set on and made my way to holding area, was eventually committed to 11th floor to search and rescue, following a crew firefighting

we found it impossible to enter floor 11 and eventually made our way out. crews were saturated due to a burst bramen length of a higher floor

done alot more but this is all I have at the mo.
