Flat 16 Grenfell Tower

Lancaster West Estate

WHITG

FF MICHAEL POLE EUSTON RED

At base station at T.O.C.

No knowledge of Grenfell Tower

Riding A231 Euston PL

Approach from the east

We arrived, rigged in BA and proceeded to the base of tower (BA Marshall's Branches, hose, breaking in gear were needed, we gathered equipment. Four of us proceeded to bridgehead and were detailed to make our way to 23rd floor for S+R. Around 14th to 18th floor we decided not to proceed due to time constraints and searched the floor we were at. We rescued 3 adults, 4 children. At the bridgehead I was assisted with BA removal and Firekit removal as I suffered from exhaustion. My tunic & helmet were left in the building so all further activity was limited to safe zone fireground activity.
