---- Comments ----

(NPAS-20170707-0049 SUPP DATA 61 COMP.)

Relation: NPAS-20170707-0048 DUPLICATED BY 07/07/2017 07:10:20 723867 XW-NPAS284 SYSTEM OPERATOR 723867

Could an aerial reconnaissance (photo and video) be conducted of Grenfell Tower capturing the damage caused to the structure along with the building layout of the estate in the

immediate vicinity of the block. along with access routes into the estate/to the block (any pinch points, road works, obstructions, etc.)

This is for Operation Northleigh the investigation into the fire at Grenfell Tower.

We are looking to evidence the damage caused by the fire and to identify any obstructions in the

estate that may have hindered the emergency response to the incident.

Regarding the access routes in to the estate would it be possible to have two tasking's for this one during the day and one at around the same time the fire started (0116 hours

Wednesday) to record the possible obstructions faced when emergency services arrived (the parking in the estate/would this have had an impact).
