This statement has been written at the request of colleagues investigating the fire at Grenfell Tower that took place on 13th June 2017. I have already provided a statement detailing my actions on the night, dated 27 June 2017. Throughout the night my body worn video (BWV) served as both my decision log and incident management log. The camera is not a covert device, I wear mine on my chest, it is yellow with the words 'Video and Audio' written upon it. When it is recording it emits a high pitched beep loudly every minute or so. Also when active it flashes with a distinctive red light. These features are designed to draw the attention of those the camera is facing. I now exhibit my BWV recording of that night as NT/1.

I have been shown 15 clips from my BWV that I have been asked to exhibit for the purposes of the Grenfell Tower public inquiry. They are as follows:

INQ00000151 - NT/1/1

INQ00000152 - NT/1/2
