

<p>1 Thursday, 21 June 2018 2 (10.00 am) 3 SIR MARTIN MOORE-BICK: Good morning. Welcome to today's 4 hearing. 5 I invite Mr Millett to take the matter forward from 6 here. 7 Yes, Mr Millett. 8 Evidence re Flat 16 9 MR MILLETT: Thank you very much, Mr Chairman, good morning. 10 Good morning, everybody. What I'm going to do for 11 the first part of today is to read aloud into the record 12 certain aspects of the evidence that we have in relation 13 to flat 16 and then, at the end, I shall formally read 14 by reference into the record the material that I don't 15 intend to read aloud, but should be taken as read into 16 the record so that it will be available not only to the 17 core participants but also to the public. 18 I'm going to start then, if I may, Mr Chairman, with 19 Mr Kebede's first 999 call, which has been heard, 20 I think, a number of times now through the experts and 21 through me when I opened, but it's worth just going 22 through once more. 23 I should just say before we listen to it that the 24 words that you hear in a non-English language have been 25 established as having been spoken in Amharic and they've</p> <p style="text-align: center;">Page 1</p>	<p>1 OPERATOR: The fire brigade are on their way. Are 2 you outside? 3 CALLER: Yes, yes. I'm outside. 4 OPERATOR: Yeah, well the fire engines are on their 5 way, just tell me how many floors you've got there? 6 CALLER: It's the fourth floor. 7 OPERATOR: Right, okay. 8 CALLER: Quick, quick, quick. 9 OPERATOR: They're on their way already. 10 CALLER: It's burning. 11 OPERATOR: Yes, I know it's burning but they are on 12 their way. You've only just called. As long you're 13 okay, yeah? 14 CALLER: Okay. 15 OPERATOR: Yeah, as long as you're -- 16 CALLER: (Inaudible) fridge side, yeah. 17 OPERATOR: Pardon? 18 CALLER: By the fridge side, okay, coming quick. 19 OPERATOR: Yes, you wait outside, yes. 20 CALLER: Yeah, I'm outside, I'm (inaudible) 21 downstairs. 22 OPERATOR: Okay, so the fire engines are on the way, 23 they will be there soon, okay? 24 CALLER: Okay. 25 OPERATOR: You've only just called us so it will take</p> <p style="text-align: center;">Page 3</p>
<p>1 been translated for the purposes of the transcript, and 2 I will be showing you and reading the evidence from the 3 translator after this. 4 But what I'm going to do now, if I can, is to play 5 the I think by now familiar audio of the 999 call, that 6 is the first one by Mr Kebede at 00.54.29 on 14 June, 7 with the transcript up on the screen next to it. 8 So if we can proceed with audio file and then scroll 9 down through the transcript. I hope that will work. 10 (999 call played) 11 Transcript: 12 OPERATOR: Fire Brigade. 13 CALLER: Yeah, hello, hi. In the fire is flat 16, 14 Grenfell Tower. 15 OPERATOR: Sorry, a fire where? 16 CALLER: Flat 16, Grenfell Tower. In the fridge. 17 OPERATOR: Right, hang on. 18 CALLER: Flat 16, Grenfell Tower. 19 OPERATOR: Flat 16. And what's the postcode? 20 CALLER: W11 1TG. 21 OPERATOR: W11, 1 T for Tango? 22 CALLER: Yeah, but coming quick, please. 23 OPERATOR: Yeah, would you just -- I have to get the 24 address, okay. Glen -- 25 CALLER: Flat 16, Grenfell Tower, W11 1TG.</p> <p style="text-align: center;">Page 2</p>	<p>1 a minute for them to get there. 2 CALLER: Yes, yes. 3 OPERATOR: Yes. Okay? 4 CALLER: What made you come out right now? Why 5 you're out? 6 OPERATOR: Can I let you go? 7 OPERATOR: Hello? 8 CALLER: (Inaudible) Grab it and leave! Just leave! 9 What kind of person is she? 10 OPERATOR: Hello? 11 CALLER: What? Hello? 12 OPERATOR: Can I let you go. You are outside, yeah? 13 CALLER: Yeah, I'm outside. 14 OPERATOR: Right, okay. Bye. 15 MR MILLETT: Thank you very much. 16 You'll have noticed, Mr Chairman, that in the last 17 10 or so lines of the transcript there are words that 18 you wouldn't have heard on the audio. I'll just take 19 those from below where the operator says, "Yes, okay?": 20 "CALLER: What made you come out right now? Why 21 you're out? 22 "OPERATOR: Can I let you go? 23 "OPERATOR: Hello? 24 "CALLER: (Inaudible) Grab it and leave! Just leave! 25 What kind of person is she?</p> <p style="text-align: center;">Page 4</p>

<p>1 "OPERATOR: Hello? 2 "CALLER: What? Hello?" 3 Then it continues in English to the end. 4 The next item is the witness statement of the 5 Amharic translator for that call, which is -- I'll give 6 the reference on Relativity -- MET00012648, and the 7 witness statement itself is signed by Ephrem Ergeti, 8 dated 5 March 2018. 9 And the translator says: 10 "I the above named metropolitan Amharic interpreter. 11 I was requested to listen to a phone call to the Fire 12 Brigade which I was told it was recorded in English and 13 Amharic. I was required to transcribe the Amharic and 14 translate it into English afterwards. 15 "I produce the Amharic transcription ... and the 16 English translation of this as EE33." 17 I don't need to go to the transcription, but I can 18 read aloud into the record the translation, and there 19 are a number of sentences. 20 The first sentence is: 21 "What made you come out right now?" 22 The next is: 23 "Why you're out?" 24 The next is: 25 "(Inaudible) grab it and leave!"</p> <p style="text-align: center;">Page 5</p>	<p>1 OPERATOR 2: In the fridge? 2 CALLER: Yeah. 3 OPERATOR 2: Alright (inaudible) no one (inaudible). 4 CALLER: Is um no one there. 5 OPERATOR 3: Hallo? 6 CALLER: Hallo? Uh? (inaudible voice in 7 background). 8 OPERATOR 3: Hallo, you called 999. Do you need the 9 Police? 10 CALLER: Hallo? 11 OPERATOR 3: Hallo? You called 999. 12 CALLER: Yes. 13 OPERATOR 3: Do you need the Police? 14 CALLER: No, no. It is the fire, the Fire Brigade be 15 here now. S'alright, okay. 16 OPERATOR 3: It's what, sorry? 17 (4 second pause) 18 CALLER: Hallo? 19 OPERATOR 3: Hallo. Do you need the Police? 20 CALLER: Yes? 21 OPERATOR 3: You phoned 999. 22 CALLER: No! No, no, no, non -- the Fire Brigade 23 here now. I just I called the Fire Brigade, that's why. 24 S'okay now ... 25 OPERATOR 3: Okay. You -- you need to calm down ...</p> <p style="text-align: center;">Page 7</p>
<p>1 The next is: 2 "Just hold it and go out! What kind of person is 3 she?" 4 And there is then a further statement which I don't 5 need to read which forms part of that translation 6 evidence. 7 Mr Chairman, we then go to the second and third 999 8 calls that Mr Kebede made. 9 So far as the second is concerned, it has been 10 disclosed but it has no evidential value. It looks like 11 simply an unconnected call. 12 The third, though, has a transcript and this is 13 under INQ0000094. I'd ask Trial Director, please, to 14 play that to the inquiry whilst showing the transcript 15 up at the same time. This, I should say, is timed at 16 1.00.21. 17 That's the transcript on the screens and if the 18 Trial Director could kindly play the audio. 19 (999 call played) 20 Transcript: 21 CALLER: Allo ha. 22 OPERATOR 1: Are you out? 23 CALLER: I call ... explode. 24 OPERATOR 2: What's on fire? What's the fire? 25 CALLER: It's actually started in the fridge.</p> <p style="text-align: center;">Page 6</p>	<p>1 CALLER: ... alright. 2 OPERATOR 3: ... a little bit so I can understand 3 what you're saying to me. 4 CALLER: I don't understand. What talking? 5 OPERATOR 3: You called the Police. Wh -- what's 6 happening where you are? 7 CALLER: No, no! It's not the Police! Just the 8 fire. 9 OPERATOR 3: There's a fire? 10 CALLER: Yeah, the Fire Brigade are here now. 11 OPERATOR 3: Okay, no worries. 12 CALLER: I don't need the Police, okay? Alright, 13 okay, thank you. 14 OPERATOR 3: Bye. 15 MR MILLETT: Thank you very much. 16 There are one or two aspects of that evidence which 17 are notable. The first is that Mr Kebede says in the 18 fifth line of the transcript, "It's actually started in 19 the fridge", which you'll have seen, Mr Chairman. 20 The other is that it appears -- we may need to 21 explore this further in evidence with the Fire 22 Brigade -- that he is talking to somebody who is not the 23 police responder. 24 I've just been reminded by Ms Grange that the 25 transcript says "actually" but the audio doesn't, so</p> <p style="text-align: center;">Page 8</p>

2 (Pages 5 to 8)

<p>1 whether that's a point we need to explore further, we 2 may need to take further, but I don't know. So that is 3 a discrepancy I should perhaps, in fairness, point out. 4 The next document is the further witness statement 5 of the Amharic translator for that 999 call and it's 6 dated 21 March 2018. It's Relativity reference is 7 MET00012697. I will just read this into the record. 8 Again, it's Ephrem Ergeti, and that translator says: 9 "On 21/03/18 I noticed one extra phrase spoken by 10 Mr KEBEDE which was not included in EE13/2 ..." 11 That's the first transcript we heard this morning 12 and the phrase was "Just leave!": 13 "I therefore produce an amended version of this 14 transcription in Amharic as EE13/4 and the English 15 translation as EE13/5, both of which include these 16 words. I was then present when DC NIGHTINGALE inserted 17 these translated exchanges into the transcript of the 18 entire call to ensure they were put in the right place." 19 So, Mr Chairman, that concludes the evidence in 20 relation to the 999 calls that I wish to read aloud into 21 the record verbatim or partly verbatim. 22 Evidence of BEHAILU KEBEDE 23 MR MILLETT: Can I next then turn to Mr Kebede's evidence to 24 the inquiry in written form. 25 I begin with his statement, which is reference</p> <p style="text-align: center;">Page 9</p>	<p>1 to become a pilot. I have extremely fond memories of my 2 childhood. 3 "6. [Redacted] ... 4 "Coming to the UK 5 "7. I came to the UK in 1990. 6 "8. [Redacted] ... 7 "9. [Redacted] ... I am now a British Citizen. 8 [Redacted] ... 9 "10. In 1991, both my younger brothers joined me in 10 the UK. When they first arrived, we all stayed together 11 in a hostel. However, I then applied to Kensington and 12 Chelsea Council for accommodation. About 25 years ago, 13 I was offered Flat 16 in Grenfell Tower. I think this 14 was in about 1992. 15 "Living at Grenfell Tower. 16 "11. It is difficult to explain just how happy I 17 was to move into Flat 16 in Grenfell Tower with my 18 younger brothers. I was so grateful that we were given 19 accommodation. This was our first real home in the UK. 20 I have so many wonderful memories of the three of us 21 living there together. My brothers were still at school 22 and I felt a sense of responsibility to look after them. 23 "12. Over the years, I came to love the peaceful 24 and friendly community at Grenfell Tower. Lots of 25 Ethiopians and Eritreans lived in the building and I</p> <p style="text-align: center;">Page 11</p>
<p>1 IWS00000490. That's the reference. It was provided 2 very kindly by Mr Kebede in co-operation with the 3 inquiry, and it's been signed and dated 1 June 2018 4 under a statement of truth. 5 I shall read it aloud down to paragraph 91. 6 I should say that parts of it have been redacted and 7 I shall obviously not be reading the redacted parts 8 aloud: 9 "1. My name is Behailu Kebede. I lived in Flat 16 10 on the fourth floor of Grenfell Tower. I believe that 11 the fire on 14th June 2017 started in my kitchen. 12 "2. In this statement, I discuss various matters 13 including my background, Grenfell Tower, my flat, the 14 night of the fire and my life since then. 15 "Ethiopia. 16 "3. I was born on 2nd April 1973 in Addis Ababa, 17 the capital of Ethiopia. My family are Orthodox 18 Christians. 19 "4. My father was a lawyer. He passed away in 20 1997. My mother was a civil servant. She is retired 21 now and still lives in Addis Ababa. I was one of four 22 siblings and the oldest boy in the family. 23 "5. We were a content middle class family who 24 enjoyed a good quality of life and did not want for 25 anything. I received my high school diploma and aspired</p> <p style="text-align: center;">Page 10</p>	<p>1 knew them all. Many were close friends. It is 2 customary in our culture to be hospitable and welcoming. 3 I was invited to many special occasions and events. 4 "13. It was not just amongst the Ethiopians and 5 Eritreans in the building that there were such strong 6 bonds. It was with everybody. The building was a 7 cosmopolitan and multicultural melting pot with people 8 from all over the world. The Grenfell Tower community 9 was representative and symbolic of the local area around 10 Ladbroke Grove and Portobello Road. There were also 11 lots of local shops and businesses. There were tube 12 stations nearby. We were on the path of the Notting 13 Hill Carnival parade. There was very little not to like 14 about Grenfell Tower, as far as I was concerned. It was 15 a truly special place. 16 "14. I loved my flat too. I completely furnished 17 it myself. It was spacious and beautifully lit with 18 sunlight coming in from the big windows all around the 19 flat. Friends who visited me used to say that my flat 20 was lovely. 21 "15. In the early years, I had various part-time 22 jobs, working in shops. In 1996, I obtained my driving 23 licence and started minicab driving. 24 "16. [Redacted] ... 25 "17. After my brothers completed their higher</p> <p style="text-align: center;">Page 12</p>

<p>1 education, the flat was becoming too small for all three 2 of us. There was still a close bond between us but we 3 believed that it would assist all of us if they got 4 their own place. So my brothers moved out of Grenfell 5 Tower in the late 1990s.</p> <p>6 "18. I think it was in the summer of 2015 that a 7 friend told me about an Ethiopian lady called Elsa who 8 had nowhere to stay. I had room and thought she could 9 contribute to the cost of the flat's upkeep. Elsa moved 10 into one of the bedrooms in my flat. She was still 11 living there at the time of the fire.</p> <p>12 "19. I met Almaz who is also Ethiopian about three 13 months or so before the fire. I met her through another 14 friend. She had nowhere to stay. So I agreed that she 15 could move into the second bedroom in my flat. She also 16 made a contribution to the cost of the flat's upkeep.</p> <p>17 "20. After Almaz moved into the flat in early 2017, 18 I initially slept in the living room on a single 19 mattress. About a week before the fire, I had bought a 20 new double mattress.</p> <p>21 "21. I would estimate that I knew about half the 22 residents of Grenfell Tower very well. I had so many 23 friends in the building. I saw families move in with 24 their young children and watched how the children grew 25 up into adults. Everyone at Grenfell Tower was polite</p> <p style="text-align: center;">Page 13</p>	<p>1 a potential risk to residents as well as making the 2 corridors very narrow.</p> <p>3 "25. There were other issues. Although I did not 4 personally experience electrical problems I heard that 5 many others in the building did. I heard that this was 6 due to power surges. I heard about electrical 7 appliances being damaged including fridges, microwaves 8 and laptops. I heard that the Council paid compensation 9 to lots of people in the building affected by such 10 electrical problems.</p> <p>11 "26. The double glazed windows caused problems too 12 as they had not been correctly fitted. There were gaps 13 in between the windows and frames. Air was entering my 14 flat through these gaps. I made a direct complaint to 15 the builders regarding this. The Council sent in 16 contractors who, I believe, put sealant in the gaps. 17 But this did not fully solve the problem.</p> <p>18 "27. I remember meetings in the community hall next 19 to Grenfell Tower where there were only residents 20 present and we decided what we would do to express our 21 concerns. I cannot recall when exactly these meetings 22 were but the residents used to meet about once a month. 23 We initially complained to the Council and then later to 24 our MP. There was also a meeting at the local swimming 25 pool with our MP present that I attended. The MP</p> <p style="text-align: center;">Page 15</p>
<p>1 and courteous.</p> <p>2 "Refurbishment.</p> <p>3 "22. Before the refurbishment began at Grenfell 4 Tower in 2012, the internal layout of the building was 5 different. My flat was originally on what was the first 6 floor. However Kensington and Chelsea Council managed 7 to build additional flats on the lower floors. After 8 the refurbishment, my flat was on the fourth floor.</p> <p>9 "23. Before the refurbishment, I had no issues at 10 all with my flat or the building. However after the 11 refurbishment, no one I knew was happy. There were many 12 complaints and many problems. The residents were not 13 consulted. All we were shown was a picture of how 14 things may look once the work was completed.</p> <p>15 "24. As part of the refurbishment process, new 16 boilers were to be installed in all the flats. However, 17 instead of removing the old boilers in the kitchens and 18 replacing them with the new boilers at the same 19 locations, it was decided that the new boilers should be 20 placed near the front doors of the flats. The reason 21 for this, we were told, was that this was the cheaper 22 option. At least half of the residents complained. 23 I was part of that group. I refused to have a new 24 boiler installed in the hallway of my flat. Also gas 25 pipes were installed in the communal corridors that were</p> <p style="text-align: center;">Page 14</p>	<p>1 promised that she would try and sort out the issues that 2 had been raised by the residents.</p> <p>3 "28. After we complained to our local MP, the 4 Council finally took out my old boiler and reinstalled a 5 new one in the kitchen. I think this was only done for 6 those residents who had complained but I am not sure 7 about that.</p> <p>8 "29. My front door was also changed. The original 9 door was much heavier and possibly wooden.</p> <p>10 "30. They also removed and replaced all the 11 radiators in the flat except for the kitchen. The 12 radiator in the kitchen was removed but not replaced. I 13 believe we were informed at a meeting that the radiators 14 in the kitchen were not going to be replaced but I 15 cannot recall what the explanation was as to why.</p> <p>16 "31. They came to every flat and changed some of 17 the electrical fittings. This included fitting an 18 electric ventilator in the kitchen and fascias to the 19 sockets.</p> <p>20 "32. Ironically, after the refurbishment, there was 21 a greater sense of community amongst the residents 22 because no one was happy with how the refurbishment had 23 been done.</p> <p>24 "33. I had no idea that highly flammable cladding 25 had been installed on the outside of the building as</p> <p style="text-align: center;">Page 16</p>

<p>1 part of the refurbishment. Nobody told me that. 2 "Annotated plans 3 "34. There are three plans that have been annotated 4 on my instructions that I wish to exhibit: 5 "A) BK/1 -- Plan of my flat (Figure 12 extracted 6 from page 23 of Prof Nic Daeid's Report); 7 "b) BK/2 -- Plan of my kitchen; 8 "c) BK/3 -- Plan of the fourth floor (Figure 11 9 extracted from page 22 of Prof Nic Daeid's report)." 10 Mr Chairman, pausing there, I'll show you the plans 11 when we've finished looking at the statement. 12 "35. The plan of my flat (BK/1) identifies where 13 Elsa, Almaz and I slept in my flat. 14 "36. The plan of my kitchen (BK/2) indicates the 15 area covered by smoke when I looked into the kitchen in 16 the early hours of 14th June 2017 and where I believe 17 various appliances in my kitchen were located at the 18 time ..." 19 Then they are listed. 20 "37. The location of the smoke alarm and the 21 cupboards in the kitchen as well as the usual location 22 of the mop and bucket are also marked on BK/2. 23 "38. I should mention that I hardly ate at home. 24 Elsa and Almaz used the kitchen more than I did and 25 would move things around. As such I cannot be 100%</p> <p style="text-align: center;">Page 17</p>	<p>1 had only had it for just over a year. Therefore, as I 2 still had a lot of space in the kitchen, I decided to 3 keep it. I hoped to get it repaired at some point when 4 I had cash to spare. I never got around to having it 5 fixed. 6 "43. Over five years ago, I cannot recall exactly 7 when, I purchased the larger fridge freezer. I bought 8 it new. It was a Hotpoint fridge freezer. I recall 9 buying it at a shopping centre. The nearest shopping 10 centre I would go to at that time would have been Brent 11 Cross but I cannot say for certain that I got it there. 12 In my second police interview, I said I thought I had 13 bought the fridge freezer from Brent Cross and I thought 14 specifically from 'John ...' I think I was about to say 15 John Lewis but after thinking about it further, I cannot 16 be certain about that now. I think I paid about £250 17 for the fridge freezer. 18 "44. The fridge freezer was situated against the 19 wall adjacent to the kitchen window. The worktop had to 20 be cut in order to fit the fridge freezer into that 21 space. 22 "45. The small fridge was Elsa's. It was smaller 23 than the broken freezer. Elsa brought it with her when 24 she moved into the flat. At the time of the fire, it 25 was on top of the broken, small freezer. I do not know</p> <p style="text-align: center;">Page 19</p>
<p>1 certain as to the exact location of everything in my 2 kitchen at the time of the fire. 3 "39. The plan of the fourth floor (BK/3) identifies 4 the fourth floor neighbours who I alerted about the fire 5 in the early hours of 14th June 2017. 6 "My flat and kitchen 7 "40. At the time of the fire, there was a small 8 freezer, a larger fridge freezer and a small fridge in 9 my kitchen. Only the larger fridge freezer was plugged 10 in and turned on. The small freezer and the small 11 fridge were not plugged in. 12 "41. I bought the small freezer approximately nine 13 years ago. I bought it new. I think it cost about £400 14 and was placed against the wall under the kitchen 15 window. It remained in the same position ever since. 16 "42. It was a long time ago but I believe that I 17 purchased the small freezer from Brent Cross shopping 18 centre. I cannot be specific about the name of the 19 shop. The small freezer broke down just after its 20 one-year warranty had expired. I phoned a fridge repair 21 technician from the Yellow Pages who informed me that 22 the problem was a faulty fuse in the freezer that was 23 expensive to fix. He quoted a price that I could not 24 afford at the time. I did not wish to throw away the 25 small freezer as I had spent a lot of money on it and</p> <p style="text-align: center;">Page 18</p>	<p>1 how old it was or what make it was. I have been shown a 2 picture of a Russell Hobbs compact fridge (model number 3 RHTTLF1) by my solicitor. It looks similar. 4 "46. In December 2016, Elsa's small fridge was 5 removed from the kitchen for a party [redacted] ... I 6 cannot recall exactly when Elsa's fridge was put back on 7 top of the broken, small freezer in the kitchen but it 8 was certainly back there by the time of the fire. 9 "47. The small fridge was only used once for a few 10 days. I cannot recall exactly when this was but it was 11 because the Hotpoint fridge freezer needed defrosting as 12 it had too much ice in it. What I did was switch off 13 the fridge freezer at the mains so that the ice melted 14 and move the food from the larger fridge freezer 15 temporarily into Elsa's fridge. 16 "48. Other than this one occasion when it needed 17 de-frosting, the Hotpoint fridge freezer never caused me 18 any problems. I never had to get it repaired by anybody 19 else. I never repaired or tried to repair it myself. 20 Any suggestion that the fridge freezer had been tampered 21 with or subjected to an unauthorised DIY repair is 22 nonsense. 23 "49. I have been asked to address a number of other 24 matters about my flat and, in particular, my kitchen in 25 this statement. They are as follows:</p> <p style="text-align: center;">Page 20</p>

<p>1 "a) There were two smoke alarms in the flat, one in 2 the middle of the kitchen and one in the hallway, two to 3 three feet from the front door. Both were on the 4 ceiling. Prior to the night of the fire, I do not 5 believe that these two smoke alarms had ever gone off. 6 I had no previous problems with either smoke alarm. 7 "b) I did not hear the smoke alarm in the hallway go 8 off before I left my flat in the early hours of 14th 9 June 2017. 10 "c) The Hotpoint fridge freezer was an arm's length 11 from the kitchen window. 12 "d) I did not keep anything on the windowsill in the 13 kitchen. 14 "e) The kitchen window did not have any curtains or 15 blinds. 16 "f) Other than the mop and bucket, I do not remember 17 anything else being kept in the area between the 18 Hotpoint fridge freezer and the kitchen window. 19 "g) There was an electrical hotplate in the kitchen 20 called a 'M'tad'. It is used to make traditional 21 Ethiopian bread called 'Injera'. It was more than eight 22 years old. I cannot remember when it was last used but 23 I do know that it had not been used since 2015. As far 24 as I am aware, my partner was the last person to use it. 25 It was not plugged in. I had never had any problems</p> <p style="text-align: center;">Page 21</p>	<p>1 from Facebook appeared in a number of national 2 newspapers completely out of context, as if I were 3 enjoying myself after the fire. One article in the 4 Daily Mail, in particular, made me so upset, angry and 5 frightened, as it appeared to suggest that I was to 6 blame for the fire. More about this later. 7 "51. [Redacted] ... 8 "52. My current partner and I have a strong, loving 9 relationship. I met her through mutual friends. We 10 have two children, [redacted] ... 11 "53. At the time of the fire, my partner and 12 children lived in their own home in Shepherd's Bush. We 13 were all planning on settling down together in my flat 14 at Grenfell Tower once I had bought it from the Council 15 under the 'Right to Buy' scheme. 16 "54. The fire changed everything. Soon after, my 17 partner and our children had to vacate their home when 18 journalists turned up at the front door and my partner 19 felt unsafe. Since then we have all lived together in 20 various hotels. 21 "13th June 2017. 22 "55. Prior to Ramadan in June 2017, I had various 23 jobs. I was working as a minicab driver for a firm in 24 Fulham. I was also working as a driver on a 25 construction site. During Ramadan, I also started</p> <p style="text-align: center;">Page 23</p>
<p>1 with it. 2 "h) The 'M'tad' electrical hotplate was usually kept 3 next to the microwave by the boiler or on top of the 4 cupboard above the sink. I do not know where it was at 5 the time of the fire. 6 "i) I did not use any extension leads in the 7 kitchen. 8 "j) At the time of the fire, the broken freezer was 9 in the same position as in photos BEK/7 and BEK/9 that 10 are exhibited to my police statement dated 5th April 11 2018. 12 "k) The broken freezer was just a few inches from 13 the kitchen window. 14 "l) There appear to be some metal poles in the 15 corner near the Hotpoint fridge freezer and the window 16 in the Bureau Veritas photos of the burned out kitchen. 17 I am not sure what these are. 18 "m) None of us smoked or used candles or used 19 incense in the flat. 20 "My partner 21 "50. Before I talk about my partner, I want to make 22 it clear that I am not prepared to name her or any other 23 relatives or friends in this statement. The reason is 24 that after the Grenfell Tower fire, several members of 25 the press harassed my partner and me. Old photos of me</p> <p style="text-align: center;">Page 22</p>	<p>1 driving for Uber as many Muslim minicab drivers were not 2 working, there was more work for me and I could earn 3 more money. I liked working for Uber and began 4 accepting more and more calls from them. As an Uber 5 driver, you are self-employed with the company paying 6 you on a weekly basis. 7 "56. I was trying to earn as much as I could in 8 order to pay the deposit for my flat at Grenfell Tower. 9 "57. On 13th June 2017, I believe I woke up quite 10 late. I would have taken a shower and washed out the 11 hair oil that I had put in my hair before going to bed 12 the previous night. That was my normal routine. 13 "58. I do not remember whether or not I went into 14 the kitchen that day. The sliding doors that separate 15 the living room from the kitchen are generally closed as 16 these doors give those who are in the kitchen and in the 17 living room a degree of privacy. 18 "59. My clothes were kept in a storage cupboard 19 that was situated near the front door of the flat. 20 "60. I am not 100% sure what I did that day. I 21 think I went to Swan, a shop in Shepherds Bush that 22 sells Ethiopian food, ran into a friend there and 23 chatted to him. I think I went to Westfield shopping 24 centre and bought some hair oil from Superdrug. I think 25 I went to a Chinese restaurant on Shepherds Bush Green</p> <p style="text-align: center;">Page 24</p>

<p>1 on the same side of the road as Shepherds Bush tube 2 station. I believe the restaurant is called Chop Chop. 3 I would usually order chicken curry and noodles. I 4 generally do not cook at home. I would usually take 5 between half an hour and an hour to eat my meal. I 6 think I went home afterwards.</p> <p>7 "61. I then drove for Uber from about 6 to 11.15 pm 8 that day. I was planning to start driving again from 9 about 6 or 7 am the next morning. At some point that 10 evening, I had a sandwich from Pret a Manger. Sometime 11 after 11 pm, I parked on Sirdar Road. I pay the council 12 for a parking permit that allows me to park anywhere in 13 the Kensington and Chelsea borough. This is more cost 14 effective than buying a separate permit to park in 15 Grenfell Tower. Sirdar Road is only a short distance 16 away from Grenfell Tower. At the time, I was driving a 17 black Toyota Prius that I had bought second hand from a 18 friend's relative.</p> <p>19 "62. I believe I arrived home at about 11.30 or 20 11.45 pm. I did not see Elsa or Almaz. I presume they 21 had already gone to bed. I did not see or smell 22 anything unusual. The sliding doors between the living 23 room and the kitchen were closed. The kitchen door in 24 the hallway was also closed. I did not enter the 25 kitchen.</p> <p style="text-align: center;">Page 25</p>	<p>1 saw smoke. It seemed to be coming from behind my 2 Hotpoint fridge freezer. The smoke was approximately 3 two-thirds of the height of the fridge freezer and had 4 reached about where the cooker was. The diagonal lines 5 on BK/2 indicate the area that was covered by smoke when 6 I looked into the kitchen. I did not see any flames.</p> <p>7 "68. The smoke that I saw in my kitchen was light 8 and white in colour. I am aware that in my first and 9 second police interviews I described the smoke as both 10 'light' and 'dark'. It is important to remember that I 11 had just had the most frightening experience of my life 12 and was in shock. I also did not have an interpreter 13 during these two interviews and I clearly needed one. 14 When I said 'dark', I did not mean dark in colour. I 15 meant thick.</p> <p>16 "69. Although I did not specifically notice whether 17 my kitchen window was open, I believe it was open. 18 During the summer, the kitchen window was normally kept 19 open all the time.</p> <p>20 "70. I am not sure if I closed the kitchen door 21 behind me or not. I rushed back to the living room, 22 grabbed my Samsung S6 mobile phone and dialled 999. I 23 left my other mobile phone behind. I banged on the 24 bedroom doors for Almaz and Elsa at about the same time 25 as I was calling 999. I was not able to connect to 999</p> <p style="text-align: center;">Page 27</p>
<p>1 "63. I took a shower and put some oil in my hair 2 (as I usually do before going to sleep). I put on a 3 t-shirt and some boxer shorts.</p> <p>4 "64. I had two Samsung mobile phones, an S6 and an 5 S3. One was for personal use and one was for Uber 6 driving. When I went to bed in the living room, the S6 7 was already fully charged. The S3 needed charging and I 8 connected it to the charger.</p> <p>9 "65. I did not fall asleep immediately. It took me 10 a while to drift off to sleep. I now know that I must 11 have been asleep for less than an hour before I woke up. 12 "14th June 2017 and the fire</p> <p>13 "66. I was awakened by an unusual beeping sound 14 that I did not recognise at first. I do not know what 15 time it was. I initially thought it sounded similar to 16 when the electric key finished charging the electricity. 17 But this beeping sound did not stop. It kept beeping.</p> <p>18 "67. I realised that it must be the smoke alarm in 19 the kitchen because the smoke alarm in the hallway was 20 not beeping. I opened the door to the kitchen in the 21 hallway. The door handle was not hot. The handle is on 22 the left-hand side of the door, with the door opening 23 away from you if you are in the hallway. I looked 24 inside for a few seconds. I do not believe I entered 25 the kitchen. If I did, it was no more than a step. I</p> <p style="text-align: center;">Page 26</p>	<p>1 immediately. I had to make several calls. I then got 2 through to the emergency services and spoke to the 3 operator.</p> <p>4 "71. I believe that I used the words 'fridge side' 5 and 'it's burning' when I spoke to the 999 operator. I 6 was trying to explain that the smoke appeared to be 7 coming from the back of the fridge freezer. I was 8 trying to stress the urgency of the matter and get the 9 Fire Brigade to get there quickly. I thought the smoke 10 in my kitchen could soon be followed by fire. I did not 11 actually see any flames until I was downstairs and 12 outside, looked up and saw my kitchen on fire through 13 the window.</p> <p>14 "72. As I banged on the bedroom doors in my flat, I 15 was shouting 'Fire! Fire! Fire!' I had to bang on the 16 doors several times. I then ran out of my flat 17 barefoot, wearing only my boxer shorts and t-shirt. I 18 banged on the front doors of all the five other flats on 19 the fourth floor.</p> <p>20 "73. I do not know the names of all my neighbours 21 but I am sure that I knocked on the front door of all 22 the five other flats on my floor. I spoke to a woman. 23 I think her name is Maria or Maryan. I shouted 'Fire! 24 Fire! Fire!' I spoke to a Somali male neighbour. He 25 was sleeping heavily and did not come to the door</p> <p style="text-align: center;">Page 28</p>

7 (Pages 25 to 28)

<p>1 immediately so I continued banging on his door. When he 2 answered, I simply shouted 'Fire! Fire! Fire!' I also 3 woke up a Sudanese woman and her husband, a young couple 4 and an English man. I alerted all my neighbours on the 5 fourth floor, shouting the same thing to all of them. 6 Most of them understood the urgency and some began 7 screaming. 8 "74. After informing everybody on the fourth floor, 9 I returned to my living room and grabbed a pair of 10 trousers as all I was wearing at the time was a pair of 11 boxer shorts and a t-shirt. I switched off the main red 12 electricity switch in the hallway of my flat because I 13 thought the problem might have been electrical. I put 14 on my trousers as I left my flat for the very last time. 15 "75. I cannot be absolutely sure as to the exact 16 sequence of what I was doing after I heard the smoke 17 alarm as it was all happening so fast, I was in a state 18 of shock and I was doing multiple things at the same 19 time. But I ended up leaving my flat without any 20 personal possessions. All I had on me were the clothes 21 I was wearing and my Samsung S6 mobile phone with which 22 I was calling 999. I left without my shoes, my wallet, 23 my second mobile phone, my flat keys or my car keys. 24 "76. When I left my flat, the smoke had not yet 25 spread beyond my kitchen. I did not see any smoke in my</p> <p style="text-align: center;">Page 29</p>	<p>1 "80. At one point, I received a call from the 999 2 operator and was asked what I had wanted when I had 3 called the emergency services. I told them that the 4 Fire Brigade had already arrived by then. 5 "81. Whilst I was standing outside, I took photos 6 and videos on my mobile phone. The police later took 7 copies of all of this. 8 "82. The Fire Brigade arrived quite quickly. They 9 appeared relaxed and confident at first that they could 10 put the fire out. I was asked on which floor the fire 11 was. I told them it was on the fourth floor and told 12 them that it was behind the fridge. Someone made a note 13 of this. One fire fighter went into the Tower pulling 14 the water hose inside. Others followed him. Another 15 fire fighter stayed with me for a short while, asking me 16 more questions regarding the flat number and where fire 17 was located in the flat. 18 "83. All I can remember saying to everyone that I 19 met outside was that I had called the Fire Brigade when 20 I saw smoke in my kitchen. I did not say anything about 21 my fridge exploding. In fact, I never saw or heard my 22 fridge explode. 23 "84. When I was standing outside, I saw the fire 24 getting bigger and out of control. I saw the fire climb 25 up the East side of the building from near my kitchen</p> <p style="text-align: center;">Page 31</p>
<p>1 living room or in the hallway inside my flat or in the 2 communal area on the fourth floor. 3 "77. I must have shut the front door as I have been 4 told that the Fire Brigade had to force my door in and I 5 believe that I was the last one to leave the fourth 6 floor. I remember passing Almaz whilst I was coming 7 down the stairs. She had a suitcase with her. 8 "78. I understand that you can hear me during my 9 999 call speaking in Amharic and saying something like 10 'What made you come out right now? Why you're out? 11 Grab it and leave. Just hold it and go out. What kind 12 of person are you?' I was talking to Almaz. I said 13 this because at the time I could not understand what she 14 was doing. Looking back now and being fair to her, she 15 had only arrived a few months earlier and probably just 16 grabbed her unpacked suitcase as she left the flat. 17 "79. When I got downstairs and went outside, I 18 stood by the front door as my main concern and focus 19 were on anticipating the Fire Brigade's arrival. I was 20 unaware who may have been around me at that point. I 21 did go back into the entrance area whilst waiting for 22 the Fire Brigade to arrive I instinctively wanted to go 23 back upstairs and alert and awaken more people. 24 Unfortunately, I had left my flat keys inside my flat 25 and was therefore unable to return inside.</p> <p style="text-align: center;">Page 30</p>	<p>1 window on the fourth floor right to the top. 2 "85. I phoned one of my friends. Initially, he did 3 not believe what I was telling him about the fire. I 4 sent him a photo or video via Viber. After seeing this, 5 he came to the Tower straight away. 6 "86. When my friend saw me wearing just trousers, a 7 t-shirt and no shoes, he said that I needed to get 8 changed. He offered to take me to my partner's home by 9 car. When we left, the fire was burning intensely. I 10 am not sure of the time. I could see people on the 11 higher floors waving their hands. At that point, there 12 was already a heavy crowd and police presence at the 13 base of the Tower. 14 "87. I tried phoning my partner but she did not 15 answer. I went with my friend to her home. The drive 16 is quite quick normally but because of the crowded 17 streets around the Tower, it took approximately half an 18 hour to get there. 19 "88. My partner lived in a ground floor flat. When 20 we arrived there, I knocked on the window and she opened 21 the door. She was shocked when she saw the state of me 22 and after I told her what had happened. I put on some 23 shoes and a jumper and told her that I felt I had to go 24 back to Grenfell Tower as I had so many friends who 25 lived there. Although she was upset, she understood.</p> <p style="text-align: center;">Page 32</p>

<p>1 "89. When we returned by car, it was impossible to 2 go back the way we had come and so we parked in Ladbroke 3 Grove and walked back to the Tower on foot. I cannot 4 remember exactly what time we returned. When we got 5 there, the whole Tower was engulfed by an inferno, on 6 all four sides. The entire facade of the building was 7 on fire. It was terrifying. It was much worse than 8 before. From a distance, I could see people on the 9 higher floors waving their hands. There were a greater 10 number of firefighters and ambulances outside than 11 before. The police officers were asking us to move away 12 from the scene, more than 100 metres away. 13 "90. I saw many of my neighbours and friends 14 outside the burning building. 15 "91. Rugby Portobello and a pub near Latimer Road 16 tube station were opened for Grenfell residents who had 17 managed to get out of the Tower. There was a lot of 18 commotion as people were looking for each other. I was 19 still with my friend. I remember going back and forth 20 between the Tower, Rugby Portobello and the pub, looking 21 for people I knew who lived in the Tower." 22 Mr Chairman, I propose to pause there in my reading 23 aloud of this statement, and just to note that the rest 24 of the statement, much of which is redacted, is in the 25 record and should be taken as formally read into the</p> <p style="text-align: center;">Page 33</p>	<p>1 stored, bedroom 1 is Almaz's bedroom, bedroom 2 is 2 Elsa's bedroom and the living room, where Mr Kebede has 3 marked where his mattress was on the night of the fire, 4 and then you can see to the south, on the east side of 5 the flat, the kitchen. 6 The next exhibit, which should be two pages on, is 7 BK/2. That is the plan of the kitchen marked by 8 Mr Kebede and exhibited to this statement. 9 You can see, working from the bottom right-hand 10 corner of the plan, how the door opens from the left to 11 the right into the kitchen. You enter the kitchen from 12 the right, and immediately opposite are the cupboards 13 and then the sink, the tumble dryer and washing machine, 14 the cooker. Then at A, the fridge freezer, the tall 15 fridge freezer. Then in the gap between A and the 16 window, the mop and bucket. Then in the shaded area on 17 the far left, just where H and I are, is the area where 18 Mr Kebede says there was smoke that he saw. 19 And H and I -- H is the large, old freezer which 20 was, he says, unplugged, and I is the small fridge which 21 was Elsa's, which sat on top of it, which was also, he 22 says, unplugged. 23 If you go two pages on, then, please, to the third 24 exhibit BK/3, that is a plan of the fourth floor. 25 Mr Kebede has marked in red on it the identity, as far</p> <p style="text-align: center;">Page 35</p>
<p>1 record. It is just that I don't propose to read it 2 aloud today. 3 Can I then turn to the exhibits to this statement. 4 First of all, BK/1. BK/1 is a plan of the flat 5 showing where Mr Kebede has marked where his clothes are 6 in the storage cupboard just to the left of the front 7 entrance. 8 Bedroom 1 is Almaz's bedroom. Bedroom 2 -- 9 SIR MARTIN MOORE-BICK: We do not have the -- 10 MR MILLETT: You don't have it on the screen? It is there 11 and I shall just perhaps orally say what I can see. 12 SIR MARTIN MOORE-BICK: Do you have the reference? 13 MR MILLETT: The reference is the same reference, I think. 14 It's at the very end of the -- 15 SIR MARTIN MOORE-BICK: I think you'll find it's page 26 of 16 the same document. 17 MR MILLETT: It doesn't have an IWS number. 18 SIR MARTIN MOORE-BICK: There we are. Thank you. 19 MR MILLETT: Mr Chairman, thank you. 20 BK/1, you can see the plan there. I'll just repeat 21 what I said. 22 This is the internal layout of flat 16, which is 23 adapted from Studio E Architects' plans. Going 24 clockwise from the front entrance, to the left is the 25 storage cupboard where Mr Kebede says his clothes were</p> <p style="text-align: center;">Page 34</p>	<p>1 as he can, of the neighbours whom he says he woke with 2 the words "Fire! Fire! Fire!" as he has explained in 3 his statement. 4 So in flat 11, which is immediately to the south of 5 flat 16, we have the Somali man, and then Maria or 6 Maryan, and then the young couple, and then the Sudanese 7 couple and then the English man marked there going 8 close-wise. 9 So that is Mr Kebede's statement to the inquiry. 10 The next document I propose to read, Mr Chairman, is 11 MET00006339, to give it its Relativity reference. This 12 is Mr Kebede's second police statement dated 13 16 June 2017, so two days after the fire. 14 I propose to read it all into the record. It's 15 relatively short, some of it goes over the same ground 16 as before, but I think it's important that it should be 17 read aloud. 18 It starts by saying: 19 "This is a translation of a foreign language 20 statement. 21 "This statement is about the fire which broke out in 22 Grenfell Tower shortly before 1 am on Wednesday 14th 23 June 2017. I lived in flat 16 on the fourth floor of 24 Grenfell Tower, Grenfell Rd in Kensington. I have lived 25 there around twenty-three to twenty-five years. It is a</p> <p style="text-align: center;">Page 36</p>

<p>1 two bedroomed flat -- I have been shown a copy of 2 exhibit ML/1, a hand-drawn plan of the flat, and I can 3 confirm it accurately represents the layout of the flat. 4 I have indicated various locations on a copy of ML/1 5 during the course of being interviewed which were then 6 marked up by DC NIGHTINGALE. I produce this copy as my 7 exhibit BEK/1 and a copy of exhibit ML/2, also annotated 8 for reference and BEK/2. 9 "There are six flats on every floor, with two floors 10 of flats below me and then the ground floor reception. 11 The flat had two smoke alarms installed one or two years 12 ago by the council. I have marked the locations as C 13 and D (C DAVIS) on BEK/1. They were fixed to the 14 ceiling in the corridor and kitchen. I was present when 15 these alarms were installed and heard the noise they 16 were supposed to make when they were tested -- it was a 17 loud bleeping. There was also an alarm in the communal 18 corridor in front of the lift, though I never heard this 19 go off and don't know when it was installed. 20 "Two women live with me, Almaz and Elsa. I don't 21 know their surnames. They occupy the bedrooms and I 22 sleep on a mattress in the living room. I met Almaz 23 through a friend as she was looking for a place to stay. 24 She moved in three or four months ago and occupies the 25 bedroom opposite the front door as you come in. She has</p> <p style="text-align: center;">Page 37</p>	<p>1 were installed as part of the general refurbishment). 2 "The smoke was rising up from floor level and coming 3 towards me. I thought it was coming from a floor below 4 but I did not go to investigate, I was in a state of 5 shock. I immediately went back into the living room and 6 grabbed my phone and a pair of trousers (I was barefoot 7 and in a t-shirt) and banged on Almaz and Elsa's doors, 8 shouting 'Fire, fire, fire' before going out into the 9 communal corridor and banging on the neighbours' doors, 10 shouting 'Fire' and waking them up. I was in the flat 11 for no more than two or three minutes after seeing the 12 smoke, I didn't even grab my key. On my way out I 13 turned off the electricity supply at the fire box by the 14 front door. I also called the fire brigade from my 15 mobile number and said there was a fuel gave my address 16 and told them it was on the fourth floor. I was on the 17 phone to them at the same time I was waking up 18 neighbours, I can't remember the exact sequence, so I 19 didn't see either Almaz or Elsa leave the flat. The 20 next time I saw Almaz was on the stairs. She was 21 carrying a large "carry-on" bag. I next saw Elsa 22 outside the building, she didn't have any bags with her. 23 I had left the door open so while I was in the communal 24 corridor I saw that the smoke had changed colour and 25 become darker. The neighbours saw this too through the</p> <p style="text-align: center;">Page 39</p>
<p>1 a key and contributes £90 a week towards costs. She 2 keeps all her stuff in her room. I have known Elsa a 3 long time and she moved in around two years ago and 4 occupies the room next to the living room. She pays me 5 £100 a week. Neither of them smoke or use incense or 6 candles. 7 "I am an Uber driver and on Tuesday evening I 8 finished my last job at about 11.15 pm and got home 9 about 11.30. Both women were in their bedrooms and I 10 did not see them. I washed my face and went straight to 11 bed in the living room. The sliding doors to the 12 kitchen were closed. At around 00.55 I was woken up by 13 the sound of the fire alarm, which I think was the one 14 in the kitchen. I can't remember if the one in the 15 corridor came on. The alarm sounded funny, it was 16 bleeping but much fainter than the time I had heard it 17 when it was installed. I couldn't smell anything but 18 went into the kitchen via the main door, which was open. 19 I could see light coloured smoke in the area next to the 20 fridge/freezer and window. It was in the general area 21 there, I cannot be more specific about exactly where it 22 was coming from. This area is marked as E on BEK/2. 23 The window was open by about ten inches. (The window 24 has two central panes that open inwards with a 'flip-up' 25 pane running along the top. The windows have keys and</p> <p style="text-align: center;">Page 38</p>	<p>1 doorway. The smoke did not enter the communal corridor, 2 it stayed in the kitchen and I never smelt anything. I 3 don't think the alarm in the communal corridor went off. 4 "All the neighbours came out into the corridor, 5 though one of them, a Somali guy, didn't wake up 6 straight away. I then went down the emergency stairs. 7 I don't know how long I was in the corridor, I was 8 panicking. When I got down to the ground floor I went 9 to the grassy area outside. I got a call from someone 10 in the emergency service, I thought it was the police, 11 and I told them I had called the Fire Brigade. The Fire 12 Brigade then arrived and I explained to a fireman that I 13 had seen smoke coming from the area of the fridge and 14 window. This must have been ten or fifteen minutes 15 after I called. It was when I was outside the building 16 that I first saw flames coming out by the window. I 17 can't remember where they were coming from exactly, 18 whether it was my floor or not, I was too panicky. The 19 flames were very small at that point -- I took some 20 photos on my phone. 21 "When I saw the smoke in the kitchen it was coming 22 from the area of the fridge-freezer between the cooker 23 and window. This is a Hotpoint fridge-freezer which I 24 bought about five years ago new from somewhere in Brent 25 Cross. I paid cash. I can't remember how much but it</p> <p style="text-align: center;">Page 40</p>

<p>1 wouldn't have been more than £270. I was alone when I 2 bought it and got a receipt but don't know if I kept it 3 or where it would be now. It had a standard one-year 4 guarantee, which I didn't extend. I've never had any 5 problems with it except when it got iced over about a 6 year ago and I had to defrost it for a couple of days. 7 It's never been faulty. It is plugged into a double 8 socket behind it, halfway up the wall, marked A on 9 BEK/2, and is kept constantly plugged in and on. The 10 socket was marked 'fridge' by the council. The other 11 socket is unused. All the sockets were installed by the 12 council as part of a refurbishment of the whole building 13 quite a long time ago. 14 "There is another, smaller, fridge in the kitchen 15 which I had stored on top of an old freezer in the 16 corner opposite, by the window. The smaller one was 17 brought by Elsa while the fridge-freezer was being 18 defrosted so it was only used for a few days. It works 19 but I keep it unplugged so as not to use up electricity. 20 The freezer under it stopped working about nine years 21 ago so it is also unplugged. I had not bought it long 22 before it stopped working so I called in a fridge 23 technician from the Yellow Pages who told me the fuse 24 had gone. He wanted money to replace it but it was too 25 much so I decided to leave it. I haven't got rid of it</p> <p style="text-align: center;">Page 41</p>	<p>1 what makes they are. On a typical day the 2 fridge-freezer, cooker, washing machine, microwave and 3 toaster would be plugged in to their nearest sockets but 4 only the fridge-freezer would have the switch on at the 5 socket, although the cooker might have had the switch on 6 too. The kettle is normally disconnected. There are no 7 extension leads. I have never had to call an 8 electrician or report an electrical fault to the council 9 and am not aware of any problems with power surges or 10 sparks etc. I have never had a problem with the 11 electricity supply. 12 "I only occasionally smoke but never in the flat. I 13 did not smoke that night and I did not drink either. 14 There is no gas in the flat and I do not use candles or 15 incense." 16 The exhibits to that statement, Mr Chairman, I don't 17 propose to take the inquiry to and they are formally 18 read into the record, and I shall refer to that later as 19 such. 20 Can I next then turn to Mr Kebede's fourth police 21 witness statement, the Relativity reference to which is 22 MET00008030, dated 24 November 2017. It's a short 23 statement, Mr Chairman, and I shall read it all: 24 "Further to my first statement to police, I have 25 been asked about a neighbour I referred to as a 'Somali</p> <p style="text-align: center;">Page 43</p>
<p>1 because I haven't actually had much use out of it and I 2 thought I would get it fixed easily. When I was using 3 it, it was plugged into a socket in the living room via 4 an extension cable because where the fridge-freezer is 5 now there used to be a kitchen cabinet and the freezer 6 cable was too short to extend to the socket there. I 7 cut out the kitchen cabinet myself when I bought the 8 fridge-freezer. I can't Remember the make of the 9 freezer, I paid about £400 for it. I don't know what 10 make the small fridge was. The kitchen has laminate 11 flooring which I laid myself around twenty years ago. 12 "I use a pre-charged key to pay for the electricity 13 meter. I pay for this in a shop and generally spend 14 about £20 to £30 a month. I am the only one with the 15 key, the wom[en] sometimes contribute cash towards it. 16 Everyone uses the kitchen but none of us uses it 17 regularly as they both leave early and come back late 18 and I also am out a lot. I don't know if either of them 19 used it that evening before I got back. We all eat in 20 our own rooms. Besides the socket behind the 21 fridge-freezer there are three others, which I have 22 marked F, G and H on BEK/2. They are all double 23 sockets. The other appliances in the kitchen are an 24 electric cooker, a washing machine, a microwave, kettle 25 and a toaster. They're all quite old and I couldn't say</p> <p style="text-align: center;">Page 42</p>	<p>1 guy' who took some time to leave the flat that night 2 after I went round knocking on everyone's doors. 3 "This neighbour lived next door to me but I am not 4 actually sure of the door number. I have drawn a 5 diagram which I produce as exhibit BEK/3 to illustrate 6 he moved in about six months earlier with his young 7 children, one or two. I think two. I have never spoken 8 to him and I do not know his name but since the fire I 9 have seen him giving interviews to news channels on TV 10 and on YouTube. I think he may be about forty, with a 11 beard, and he has clearly been in the UK a long time 12 from how he speaks. 13 "I saw this man say in one interview that I told him 14 my fridge 'exploded'. I want to make clear I definitely 15 never used the word 'exploded'. I cannot remember 16 exactly what I did say apart from saying 'Fire, Fire'. 17 Just to be clear, I did not even see flames in my 18 kitchen before leaving. I have also been told by 19 friends that this neighbour has been telling people that 20 we saw each other outside the building that night and he 21 hugged me. This is not true. I have never seen him 22 again after knocking on his door. I have just looked up 23 another interview he did on YouTube and this gives his 24 name as 'Mahad EGAL'. 25 Mr Chairman, the next document I wish to read aloud</p> <p style="text-align: center;">Page 44</p>

<p>1 is Mr Kebede's sixth police witness statement. It's 2 dated 5 April 2018 and the Relativity reference to it is 3 MET00012893. 4 On this I'm going to read parts of it out aloud and 5 the rest of it should be taken as having been read into 6 the record: 7 "This statement is about a few things I have been 8 asked to clarify by the police. 9 "I have been shown a transcript of the 999 call 10 I made to the fire brigade and have been asked who or 11 what I was referring to when I say 'Grab it and leave! 12 What kind of person is she?' I was talking to and about 13 Almaz, the woman who was living in my flat. I was a bit 14 annoyed because I saw her with a heavy suitcase when 15 I wanted everyone to leave immediately and no one else 16 brought luggage. I'm not sure where I was when I said 17 it, because I was moving around a lot as I was on the 18 phone. 19 "I have been asked about the furniture inside the 20 flat, on the day of the fire. I sent DC NIGHTINGALE 21 seven photos taken inside the flat. I sent these via 22 WhatsApp on 21/03/18. The photos were all taken in 2016 23 and I produce them as follows ..." 24 Then I don't need to take you to that, Mr Chairman. 25 Then on the next page, page 2, just about halfway</p> <p style="text-align: center;">Page 45</p>	<p>1 identical to the one used for the plant next to the fish 2 tank). There were no rugs in the flat. The floor was 3 wooden laminate. In the other corner by the double 4 doors was a wooden fruit bowl on legs with fake fruit 5 in, which I bought from Portobello Market. 6 "Coming to the kitchen, the only difference from the 7 photos is that there was an extra tiny fridge on top of 8 the freezer to the left as you enter via the living 9 room. I am not sure of the name of the material used on 10 the floor but the fireman who interviewed me knew what 11 it was. 12 "I do not have any photos of the bedrooms in Elsa's 13 bedroom. I produce the diagram of the flat as BEK/10. 14 I bought the double bed and wardrobe from Ikea." 15 Then he explains the materials of the wood. 16 Then if we look at the next document which is BEK/7, 17 which is one of the exhibits to that statement, that 18 exhibit is Relativity number MET00012987. This is 19 a photograph taken in flat 16 looking out to the 20 southeast from the living room, Mr Chairman, into the 21 kitchen, and you can see, looking at the objects, on the 22 right the cooker, and then at the top of the photograph 23 in the centre the tall fridge freezer, with what looks 24 like a fridge magnet on it. Then moving to the left 25 across the picture, a gap with a long, straight object,</p> <p style="text-align: center;">Page 47</p>
<p>1 down, he refers to a diagram. He says: 2 "I have been given a diagram of the flat on the 3 fifth floor above mine in the tower. I can confirm that 4 the layout appears to be the same as my flat, flat 16. 5 The doors are all shown to be opening correctly in or 6 out." 7 Then on the very last page of that document, I shall 8 read the first two paragraphs and some of the final 9 paragraph. He says: 10 "At the time of the fire I was sleeping on a double 11 mattress on the floor in between the sofa and chairs. 12 As you turned into the living room in the far corner to 13 your left there was NEC TV, flat screen, on a stand, 14 I cannot remember how many inches the screen was. Next 15 to it is a floor lamp I bought second hand from 16 Portobello Market several years ago. On the floor next 17 to that are two speakers and a tape/CD player by 18 Kenwood. The dimensions are visible from BEK/4. As 19 shown in BEK/8, there was then a glass and chrome dining 20 table with two layers and four high backed chairs. I do 21 not know what these chairs were made of but it was not 22 wood. I bought the table and chairs together from an 23 auction in Wembley many years ago, I cannot remember how 24 much for. In the corner next to the table was another 25 plant in a white wooden container (the container was</p> <p style="text-align: center;">Page 46</p>	<p>1 and then the old fridge freezer just under the window 2 there, which you can see on the left, tucked behind what 3 looks like part of the sliding door. 4 The next document is BEK/8, which is Relatively 5 number MET00012988. This shows -- again, ignoring the 6 individuals in it and the furniture in the living 7 room -- the kitchen at some distance away and the 8 division between them. Again, you can see the cooker 9 very clearly there and then, to its left, the tall 10 fridge freezer with some objects on top of it, and then 11 a white space or light space indicating the presence of 12 the window, and then below, to its left, the small 13 freezer. Then on the top of that what looks to be 14 another object, square object, on the top of it. 15 The next document is BEK/9, Relatively reference 16 MET00012989, which is a picture of the kitchen. 17 Ignoring the cat for the moment, the evidence to which 18 is that it ran away before the fire -- 19 SIR MARTIN MOORE-BICK: Good. 20 MR MILLETT: -- there is the cooker, and then the tall 21 fridge freezer to its left. To the left of the tall 22 fridge freezer, in the gap between it and the window, 23 you can see a pale blue object and some other objects 24 one can't quite make out. I would observe, without 25 making a submission about it, that that looks similar to</p> <p style="text-align: center;">Page 48</p>

<p>1 a mop and bucket or cleaning materials. Then to the 2 left of that a further piece of kitchen white goods, the 3 old freezer. 4 You can see very clearly the sliding doors which 5 divide the kitchen from the living room in that 6 photograph. 7 The next document, Mr Chairman, is Mr Kebede's 8 seventh police witness statement. That is Relatively 9 reference MET00013022. Dated 16 April 2018. 10 It's very short so I shall read it all aloud: 11 "I have been asked by police to give another 12 statement to address some specific points, as follows: 13 "I have been asked what the round electrical cooling 14 device found by the side of the fridge freezer is, and 15 shown a picture of it. I do not recognise this and 16 cannot think of any type of pan of mine which fits this 17 description. It's possible that it belongs to Elsa but 18 I don't know. 19 "There was normally a mop in a plastic bucket stored 20 between the fridge freezer and the window. Sometimes 21 I also put the laundry washing powder there as well but 22 I don't think there was any there on the night of the 23 fire. After the council installed new windows I did not 24 put up any curtains or blinds in the kitchen or living 25 room. The small fridge belonging to Elsa was stacked on</p> <p style="text-align: center;">Page 49</p>	<p>1 questions relating to the contents and layout of Flat 2 16, Grenfell Tower. 3 "In my last statement of 16/04/18 I was shown a 4 picture of an electric cooking device which I did not 5 recognise at the time. After speaking to Elsa, 6 I realised this must be a M'tad, which is a sort of hot 7 plate used to make injera, or flat bread, in Ethiopia. 8 I brought this back from Ethiopia over eight years ago 9 but had not used it for a few years. It was normally 10 kept on the kitchen top next to the boiler but I can't 11 remember where it was on the night of the fire. We 12 would move things around in the kitchen often. My 13 girlfriend Freyowni was the last person to use it, some 14 time before 2016. It would definitely not have been 15 plugged in on the night of the fire. I have been told 16 it was found by the fridge/freezer, I do not know how it 17 ended up there. 18 The next document -- Mr Chairman, I'm just looking 19 at the time. I probably have about 5 minutes to go 20 which will complete Mr Kebede's evidence. 21 SIR MARTIN MOORE-BICK: Shall we do that? 22 MR MILLETT: Shall we do that? Thank you. 23 The next document then, Mr Chairman, is a run of 24 CCTV images of Mr Kebede leaving the tower selected from 25 footage by the inquiry team.</p> <p style="text-align: center;">Page 51</p>
<p>1 top of the standalone freezer which wasn't working. 2 Neither of these were plugged in. They were positioned 3 opposite the main fridge freezer, as I have already 4 indicated in previous statements. 5 "I sometimes kept boxes of cornflakes on top of the 6 fridge freezer but that night I'm sure there weren't 7 any. The sliding doors were closed that night. My 8 mattress was next to the living room door leading to the 9 hall so when I went to look in the kitchen that night, 10 I looked through the kitchen door which also opens on to 11 the hall. 12 "None of us smoked in the flat and as far as I am 13 aware, no one cooked that night, although I did not get 14 home until late so I was not there in the evening." 15 Mr Chairman, the next document is Mr Kebede's eighth 16 police witness statement, dated 24 May 2018. 17 SIR MARTIN MOORE-BICK: Yes. 18 MR MILLETT: The reference to which on Relativity is 19 MET00015023. That's a three-page statement. I don't 20 intend to read it all out aloud, just a paragraph from 21 it. The rest I shall ask to be read formally into the 22 record. It says again: 23 "This is an English translation of a foreign 24 language statement. 25 "I have been asked by police to answer some further</p> <p style="text-align: center;">Page 50</p>	<p>1 I will read the Relativity numbers out as I go. The 2 first one is INQ00000015. 3 I shall just pause until the photograph comes up. 4 If that can be enlarged, that would be good. If it 5 can't, then it can't. 6 It can, very good. Thank you, Mr Trial Director, 7 that's very helpful. 8 This is a photograph of Elsa descending the stairs. 9 The time stamp for this picture is not the one on the 10 top left-hand corner of the photograph; it is the one 11 which is not easily visible to the naked eye at the 12 bottom left-hand corner in white. That shows 00.57.12. 13 It then has to be adjusted by minus 36 seconds to give 14 you 00.56.36. That time itself is not completely solid 15 and it will require some further, we suspect and hope, 16 minor verification, but for present purposes you can 17 proceed on that basis. 18 The next photograph is INQ00000028, which is taken, 19 looking at this camera, at 00.58.56, which results, if 20 you take 36 seconds off, as 00.58.20 or so -- and if 21 I say "or so", it will indicate I hope to everybody that 22 it is not an absolutely precise time to the very second. 23 That is Mr Kebede descending the stairs in the lobby 24 to Grenfell Tower at or just around that time, 00.58.20, 25 and there on the right-hand side you can see Elsa.</p> <p style="text-align: center;">Page 52</p>

<p>1 The next photograph is INQ00000027, the time stamp 2 of which in the bottom left-hand corner is 00.58.59 3 which, when given the adjustment, gives about 00.58.23. 4 You can see Mr Kebede wearing what he says in his 5 statements that he was wearing, holding a mobile phone, 6 and Elsa following him behind, also with her mobile 7 phone, approaching the front entrance to Grenfell Tower. 8 The next photograph is INQ00000054. This, from the 9 time stamp in the bottom-left, is 00.59.03 which, when 10 adjusted, gives an about time of 00.58.27. You can see 11 Mr Kebede going out of the door -- he's there in the 12 doorway, followed by Elsa, also exiting. 13 The next photograph is INQ00000047, the time stamp 14 for which reads 1.00.51 seconds which, when adjusted, 15 gives about 1.00.15, so very shortly after 1 o'clock in 16 the morning, and that is a firefighter entering the main 17 entrance to Grenfell Tower, into the lobby at that time. 18 I am not at the moment able to identify who that is. 19 Then the last in the sequence of photographs is 20 INQ00000009, which is firefighters in the lobby to 21 Grenfell Tower, and the time for that unadjusted is 22 01.01.16 which, when given the rough adjustment, is 23 01.00.40. The precise identity of the officers there is 24 a matter for further evidence. 25 Finally, in this run, Mr Chairman, we have a very</p> <p style="text-align: center;">Page 53</p>	<p>1 in that regard." 2 Then he explains in the next part of that paragraph 3 familiarity with the residents' movements in the tower. 4 Then at the top of the next page: 5 "In clarification there are 5 cameras covering the 6 entrance/lobby and lift areas of Grenfell and the 7 standard or quality of that footage is excellent ie HD 8 standard. Entry to the tower is fob key access only 9 unless a resident is buzzing you in. The correct time 10 is in WHITE at the bottom left of screen. 11 "In this statement I will detail the movements of 12 Behailu KEBEDE who was a resident on the fourth floor of 13 Grenfell Tower on the night of the tragic events of 14 14/[06]/2017 and from whose room the fire emanated, 15 after his fridge caught fire. 16 "In accordance with the Public Inquiry Teams request 17 I have identified the following movements made by Mr 18 Behailu KEBEDE prior to the fire on that night of the 19 13/[06]/2017. 20 "I note that Mr KEBEDE exits Grenfell Tower the 21 Tower at 18:17:16 hours and later on returns to the 22 building in the same clothing at 23:46:10 hours and the 23 relevant footage in this request is the CCTV footage 24 from the entrance, and lift lobby -- sole exit and entry 25 point of the tower.</p> <p style="text-align: center;">Page 55</p>
<p>1 short statement from a police officer which exhibits 2 those CCTV images and others. It's Relatively reference 3 MET00012817. 4 Can I correct that? He actually identifies the 5 cameras but also then goes on to exhibit some 6 photographs we haven't yet seen, which I'm going to show 7 you. 8 Can I start with this at the beginning of that 9 statement, if we can just have it up on the screen 10 there, please. It's MET00013130. 11 Thank you very much. It's dated 5 April 2018. This 12 is a statement from Patrick O'Riordan, who says in the 13 second paragraph that he's currently working within the 14 Operation Northleigh CCTV unit, which deals with all the 15 CCTV images and other related footage obtained and 16 relating to the Grenfell Tower fire. 17 "I have been attached to the CCTV Strand of the 18 Grenfell Investigation since August 2017, due to my 19 prior identification work with the Super Recogniser Unit 20 and other like work with SCO1 on Operation Purple 21 Wave -- the investigation into the murder of Alice 22 Gross. 23 "My role involves identifying the last movements of 24 the deceased at Grenfell Tower, from CCTV taken from 25 that building, and the subsequent creation of a timeline</p> <p style="text-align: center;">Page 54</p>	<p>1 "On KEBEDE'S return into the building, he does not 2 and is not seen to make any further movements until the 3 start of the fire. 4 "I exhibit the aforementioned/discussed images as 5 follows and in time and date order: 6 "PJO-CC-626 is a printed CCTV image of Behailu 7 KEBEDE leaving Grenfell Tower at 18:17:16 hours on the 8 13/06/2017. Seal number MPSZ10539446 refers." 9 The next image, I paraphrase, is an image of 10 Behailu Kebede entering Grenfell Tower -- rear view -- 11 at 23.46.10 on 13 June 2017, and he gives the seal 12 number. 13 The next image is a printed CCTV image of 14 Behailu Kebede entering Grenfell Tower -- front view -- 15 at 23.46.16 on 13 June 2017. Again, he gives the seal 16 number. 17 And if I can then ask to go to the next document in 18 that sequence, still in MET00012817, here we have 19 Mr Kebede leaving in the lobby at 18.17.16. That is 20 what the white numbers or time stamp at the bottom 21 left-hand corner show, Mr Chairman, but that has not 22 been adjusted by the number of seconds that are required 23 to be adjusted to bring it into line with what we know, 24 but it's more or less correct, if I can put it that way. 25 The next image, which is in the same sequence under</p> <p style="text-align: center;">Page 56</p>

1 the same Relatively number, is Mr Kebede returning to
 2 the tower at 23.46.10, as shown by the time stamp in the
 3 bottom left-hand corner, again which falls to be
 4 adjusted.
 5 Finally, in the same sequence, Mr Kebede coming in
 6 to the lobby of Grenfell Tower at 23.46.14, looking at
 7 the bottom left-hand time stamp, again to be adjusted as
 8 I have explained.
 9 So that shows him returning from, as he says in his
 10 statement, work on that night, before the fire.
 11 Mr Chairman, that concludes the evidence of and
 12 about Mr Kebede himself on the night of the fire and
 13 just before it.
 14 Is that a convenient moment for a break?
 15 SIR MARTIN MOORE-BICK: Thank you very much. Yes, I am sure
 16 it is. So we'll have a break now and resume at 11.35.
 17 MR MILLETT: Thank you.
 18 SIR MARTIN MOORE-BICK: Thank you very much.
 19 (11.22 am)
 20 (A short break)
 21 (11.40 am)
 22 Evidence of ELSA AFEWORKI
 23 SIR MARTIN MOORE-BICK: Yes, Mr Millett.
 24 MR MILLETT: Thank you, Mr Chairman. I'm now going to turn
 25 to the material relating to Elsa Afeworki, and I start

Page 57

1 with her witness statement done for the inquiry, which
 2 is reference IWS00000280 dated 21 May 2018 and signed by
 3 her under a statement of truth.
 4 SIR MARTIN MOORE-BICK: Yes, thank you.
 5 MR MILLETT: I shall read it.
 6 SIR MARTIN MOORE-BICK: Do you want this on the screen?
 7 MR MILLETT: Yes, please, Mr Trial Director. It's
 8 IWS00000280.
 9 SIR MARTIN MOORE-BICK: Thank you.
 10 MR MILLETT: Thank you very much. Thank you, Mr Chairman.
 11 "I, ELSA AFEWORKI will say as follows:
 12 "Background
 13 "1. This statement is about the events that took
 14 place on 14 June 2017 and is about phase 1 of the
 15 Inquiry only and relates to the flat in which the fire
 16 is believed to have started.
 17 "2. I was born in Adidas Ababa [redacted] ... and
 18 came to the UK in the early 1990s following the civil
 19 war. I was granted British Citizenship in 2011. In
 20 addition To English, I speak Amharic, Eritrean and a bit
 21 of Arabic. I work full time as an Accounts Manager.
 22 I attend a church in Kensington, called Kensington
 23 Temple.
 24 "3. At the time of the Grenfell Tower fire I was
 25 living in Flat 16 and had been there for over 2 years

Page 58

1 after moving in around February 2015. I now know that
 2 flat 16 was where the fire started.
 3 "4. I rented a room from Behailu Kebede who was the
 4 council tenant and paid rent of £400 per month, this
 5 included all bills such as gas, electricity, water and
 6 Council Tax. The property is a two-bedroom flat with
 7 good sized bedrooms and a particularly large living
 8 room. There were 2 bedrooms and when I first moved in
 9 I had the slightly smaller one, as you first come into
 10 the flat, but later moved to the larger bedroom in the
 11 middle. This was my room at the time of the fire. I
 12 did not know Behailu before I moved in and he was simply
 13 my landlord. We met because he was looking for someone
 14 to rent a room and I heard of him through the community.
 15 At the start Behailu had one bedroom and I used the
 16 other and there was a living room and shared kitchen and
 17 bathroom. After a while Behailu began to use the living
 18 room as a bedroom and also rented out the other bedroom.
 19 I have attached a plan of the flat which I have marked
 20 to show where things were located and exhibit this
 21 herein as 'Exhibit 1'
 22 "5. I had the middle bedroom and another lady lived
 23 in the other bedroom. She had only been there for a few
 24 months at the time of the fire and I had never actually
 25 seen her or even knew her name. If I met her today

Page 59

1 I would not recognise her. I did not meet her because
 2 she had not been there for long and because our daily
 3 routines were very different and so I never ran into
 4 her. I now know she is called Almaz Kinfu but I do not
 5 know her and have never spoken with her. My routine is
 6 to get up early and leave the house at about 7 am in
 7 order to start work at 8 am. After work I may see
 8 friends or eat out and tend to return later in the
 9 evening and go to bed quite early. Behailu works as a
 10 taxi driver and is often not in the flat in the evening
 11 and for much of the night. As a result I often had the
 12 flat to myself because I would not see anyone.
 13 I sometimes heard Ms Kinfu in the room next door but
 14 never really saw her. Before her there was a man living
 15 there but I never really saw him either. Over the two
 16 years I have got to know Behailu a little bit but our
 17 lives were very different and the arrangement suited us.
 18 "6. I liked living in Grenfell Tower. It was quiet
 19 and my room was big and although it was central the flat
 20 was very quiet. At the beginning Behailu wasn't sure if
 21 I was the right person to stay in his flat but after a
 22 short time he realised I was reliable and we got on.
 23 Behailu was a good landlord. I got on with my own
 24 business and he had his.
 25 "7. I did not know my neighbours that well but

Page 60

<p>1 I used to say hello to the Sudanese guy on the fourth 2 floor and I would see him in the lift in the morning. 3 I didn't know his name, I just knew him to say hello. 4 We used to leave at the same time in the morning. Next 5 door I used to see different people. There was an 6 English husband and wife at first, but after I had been 7 there a while that changed and suddenly I saw a Somali 8 man with an English wife. I think they had been there 9 only 2 or 3 months or so at the time of the fire. I 10 knew Alemisnet who lived in the Tower and had met her 11 before in an Ethiopian church. 12 "8. We lived fairly separate lives and I kept myself 13 to myself. I did not cook that much in the flat. I am 14 single and cooking is not my thing. I would use the 15 kitchen to make coffee, tea and some basic food but not 16 that much. The kitchen was entirely electric. Near the 17 window was a large fridge freezer and next to that a 18 cooker and after that a bin. There was then a washing 19 machine and sink. At the end of the kitchen top we had 20 a microwave and toaster. I exhibit a plan marked 21 'Exhibit 2'. 22 "9. There was a small gap between the 23 fridge/freezer and the window. It was not a very big 24 gap and you could not do much with it. We kept a mop 25 and red plastic bucket there but there was not much</p> <p style="text-align: center;">Page 61</p>	<p>1 freezer was working again and the small fridge 2 unplugged. I don't think the fridge freezer was ever 3 actually broken but just stopped working because it had 4 too much ice. Once the fridge freezer thawed out it 5 started working again and I think that Behailu just 6 plugged it back in. We did not move the small fridge 7 into my room because this used electricity and cost 8 money. Behailu paid for the electricity on a key meter 9 and we wanted to save money so I did not move the small 10 fridge into my room and we did not use it. We left it 11 in the kitchen on top of the spare freezer. The fridge 12 freezer had the same problem again, I think in about 13 2016, when ice built up. Again Behailu unplugged it and 14 again after the ice had melted the problem was sorted 15 out and the fridge freezer started working again. We 16 kept the small fridge there in case the main one stopped 17 working. I said in my police statement that there had 18 been no electrical problems with the fridge freezer and 19 that it was working OK. That was correct on the night 20 of the fire and I don't know if the two times the fridge 21 stopped working were because of electrical problems or 22 not. I think the problem was build-up of ice. The 23 fridge freezer was working at the time of the fire and 24 was plugged in normally without an extension cable. We 25 only used the extension cable for the short time when we</p> <p style="text-align: center;">Page 63</p>
<p>1 space. In the past I used it to store six 1 litre 2 bottles of water but that was a few years ago and only 3 once or twice. At the time of the fire it was a narrow 4 space used to store a mop and bucket and nothing else. 5 The windowsill was empty and nothing was stored on it. 6 There was a radiator under the window. The kitchen had 7 no table or chairs in it but we did have a separate 8 freezer and small fridge which were kept on top of each 9 other. They were in the corner opposite the fridge 10 freezer. They had been there for a few years. 11 "10. The freezer was there when I arrived. I never 12 saw it working but thought it was a spare freezer. In 13 around the summer of 2015 the main fridge freezer 14 stopped working. I found that milk was going rotten and 15 it was not keeping things cold. I think it was because 16 there was too much ice that had built up and the door 17 would not close properly but I don't know. Behailu 18 unplugged the fridge for a day or so and we had no 19 fridge. At that time it was summer and we needed a 20 fridge so I bought a small fridge from a friend so that 21 we had something to cool things. My hope was that 22 I could use this small fridge in my room and have it 23 with me keep my milk or yoghurt. In order to plug the 24 small fridge I used an extension cable to plug it in and 25 it worked. After a few days I came home and the fridge</p> <p style="text-align: center;">Page 62</p>	<p>1 used the small fridge and normally there was no need for 2 such extension cables. 3 "Hot plate/injera pan 4 "11. The kitchen had a work surface along one side 5 with ordinary kitchen cupboards on the wall above. On 6 top of the cupboard above the sink area was an electric 7 injera pan for making injera, a traditional Ethiopian 8 flat bread. The injera pan had a shiny aluminium lid 9 and was kept on top of the cupboard somewhere above the 10 sink. I exhibit a photo taken from the internet that 11 shows one that was very similar 'Exhibit 3'. The injera 12 pan was not in the cupboard but on top of it. I never 13 used the injera pan and if I wanted to eat injera would 14 just buy it. Making injera takes 3 days in winter and 15 2 days in summer and I never bothered to make it, 16 especially just for myself. I never saw the injera pan 17 being used and it just stayed on top of the cupboard. 18 The cover was quite big and I remember seeing it. 19 Looking at the pictures from my flat after the fire, I 20 have been asked about a 'hot plate'. This looks like 21 the electric injera pan that was on top of the kitchen 22 cupboard. As I say I never saw the pan used and do not 23 know if it even worked and the last time I saw it, it 24 was on top of the cupboard. I do not know where it came 25 from.</p> <p style="text-align: center;">Page 64</p>

<p>1 "12. On the night of the fire I did not see the 2 kitchen in use and there was nothing unusual. The 3 injera pan did not appear to be in use and the freezer 4 and small fridge were not plugged in and not being used. 5 "The Night of the Fire 6 "13. On the day of the fire I came back from work 7 at around 8.30 in the evening. I had been clothes 8 shopping that night. No one else was in the flat when 9 I arrived back and I was able to have a shower and a cup 10 of tea. I was in my room for a time reading something. 11 It was a normal quiet evening and I went to sleep around 12 11 pm. 13 "14. In order to help me sleep I took a tablet 14 called [redacted]. I have been prescribed this by my 15 GP. It is not for sleeping but I have found that it 16 helps me sleep. It can be hard for me to sleep and 17 I find that when I take one of these with hot water it 18 makes me sleep very well. They make me a bit dizzy and 19 I fall asleep quickly when I take one. 20 "15. I took the tablet and fell asleep and then at 21 some point I heard Behailu knocking on my door. He 22 said: 'Fire! Fire! Come out!' Behailu has since told 23 me that he knocked on my door three or four times and 24 had difficulty waking me. The tablet that I had taken 25 works very well at helping me sleep. I don't always</p> <p style="text-align: center;">Page 65</p>	<p>1 mobile phone, which is normally on my bed or by the bed 2 side, but other than this I had nothing and was still in 3 my night clothes. 4 "18. I didn't really know what was going on. I was 5 walking but also still kind of sleeping. I think that 6 Behailu was walking behind me down the stairs, but I 7 don't really remember. 8 "19. I took the stairs and did not think of taking 9 the lift. I know this because at work we do not use 10 lifts when there is a fire alarm. I don't remember 11 hearing any fire alarm as I left the flat or in the 12 stairs. Behailu said that he heard an alarm and that is 13 why he woke up but I don't remember hearing it myself. 14 "20. I walked from the flat directly into the lobby 15 area and then down the stairs. As I was walking down 16 the stairs I didn't see anything like fire or any smoke. 17 The lights were on and it was clear. But as soon as 18 I reached the ground I saw the firemen coming into the 19 Tower and we walked past each other. The fire brigade 20 seemed to be arriving at the front of building as I was 21 leaving. I don't remember anyone else coming from the 22 building at that point. 23 "21. The police have shown me a CCTV photograph of 24 me leaving that says I left at 00.58.05. I am holding 25 my mouth. I don't know why that is. It could have been</p> <p style="text-align: center;">Page 67</p>
<p>1 take them but when I have difficulties sleeping I take 2 one. I was in a very deep sleep when he knocked on the 3 door and even when I woke up, I felt like I was 4 sleep-walking. When he said, 'Come on! Fire! Fire!' 5 I first thought it was just an alarm, or a practice 6 evacuation like you get at work. In my mind I thought 7 we would leave and we would come back very quickly. 8 Sometimes we have a fire drill at work and it felt like 9 that. I had never seen any fire in Grenfell Tower or 10 heard anything about a fire before and when I woke up 11 that night I was still very sleepy and felt like I was 12 sleepwalking. I am not the sort of person who wakes up 13 quickly. 14 "16. I came out of my bedroom and I saw Behailu and 15 Almaz Kinfu. Almaz was running up and down the corridor 16 which I thought was odd because everybody knows that 17 when there is fire you have to leave immediately. I 18 left them behind and walked straight from my bedroom out 19 of the flat. I didn't go into any other room. I did 20 not look into the bathroom or the kitchen. I simply 21 walked out of the flat and took the stairs down. 22 "17. As I left I do not remember seeing any smoke 23 or fire. Although there was a smoke alarm in the 24 kitchen I don't remember hearing it. I didn't look left 25 or right but just walked out. When I left I took my</p> <p style="text-align: center;">Page 66</p>	<p>1 yawning or smoke -- I just don't know. 2 "22. Outside the building I do remember seeing the 3 Sudanese guy I knew standing there with his wife. They 4 were the ones that said the fire was in my flat. That 5 was the first time I knew about this. It was only when 6 I was outside that I saw the fire. 7 "Outside the Tower 8 "23. When I got downstairs I walked out of the 9 building round to the side of the Tower. There is a 10 grassy area to the east side. Very quickly the whole 11 side of the Tower was on fire. The shock of what was 12 happening hit me. I couldn't believe how quickly the 13 fire spread from my flat up the side of the building. I 14 don't remember exactly where the fire was on the 15 building when we left, but it didn't take any time for 16 the fire to spread and climb right up the side of the 17 Tower. It was horrific seeing it spread and realise 18 that people were inside. 19 "24. As I was standing with the Sudanese couple 20 looking at this, I started to panic and I began to have 21 difficulty knowing whether what I could see was true. 22 I was just shivering and shaking. Another Arabic woman 23 came and stood with us. Within minutes other people 24 arrived near me. My brain was just focused on the fire 25 and I thought I was dreaming. I didn't think it was</p> <p style="text-align: center;">Page 68</p>

<p>1 really happening. Maybe on TV I have seen things that 2 are similar, but on the television or in a film it is 3 not like that. It is completely different. I don't 4 even have a word in my own language to say what the 5 shock was like. 6 "25 I remember my whole body responding. I needed 7 to go to the toilet which got worse and worse until 8 I slightly wet myself. I was thinking, how people were 9 going to come out? What was going to happen to them? 10 I felt sick. 11 "26. I left the side of the building because 12 I urgently wanted to go to the toilet. There was no 13 toilet but I was so desperate that I just went to the 14 toilet near a tree. I was so frightened that I hardly 15 knew what I was doing. When I came back everybody was 16 there, this was just a few minutes later. The police 17 and the fire brigade had all arrived and there was a 18 crowd of people. The atmosphere was completely 19 different. There were so many people. Everything was 20 chaos and the fire was out of control. 21 "27. My body was shattered from the shock of what 22 I could see. 23 "28. I stood on the grassy area to the side of 24 Grenfell Tower. I think there may have been other tower 25 residents there but I wasn't sure and I don't really</p> <p style="text-align: center;">Page 69</p>	<p>1 Both phones just rang and rang and neither answered and 2 I couldn't speak to either of them. I tried to call 3 them again but was never able to speak to them as they 4 did not answer. I knew the faces of many people in the 5 tower but did not know their phone numbers, I wanted to 6 help but I couldn't call them. I phoned a friend and we 7 prayed over the phone. I expected that the fire brigade 8 would come and they would handle the fire but very 9 quickly the fire was out of control. It was up the 10 entire side of the building and the fire brigade just 11 couldn't reach that high. 12 "34. I moved to another places and came back. 13 I don't know how many places I was standing as things 14 seem so confusing to me." 15 Mr Chairman, I'm going to read formally into the 16 record paragraphs 35 to 40. I won't read them aloud, 17 but I will read aloud paragraphs 41 to 43. 18 SIR MARTIN MOORE-BICK: Thank you. 19 MR MILLETT: Under "Further comments": 20 "41. It was not until I had left the tower that 21 I found out the fire had started in the flat that I 22 lived in, and I have been told that the fire probably 23 started in the kitchen and was caused by our 24 fridge/freezer. 25 "42. I know that some people have said that Behailu</p> <p style="text-align: center;">Page 71</p>
<p>1 remember it. I was still finding it difficult to know 2 what was going on 3 "29. The fire was just going everywhere. After 4 a short time it started making a crackling and popping 5 type noise. I had never seen anything like it before. 6 It took only a few minutes and it was everywhere. 7 I can't remember step by step what happened and felt 8 overwhelmed by it all. The fire was so quick and so 9 strong. No one could control the fire. It was 10 uncontrollable, like a gas. It was like petrol when it 11 catches fire. 12 "30. As I was standing there I didn't notice 13 Behailu or Almaz. I have no idea what happened to Almaz 14 and I do not think that I would even recognise her today 15 if I saw her. 16 "31. While standing outside the tower, watching the 17 fire, I could hear everything -- children were shouting 18 up to the people in the Tower: 'Come out! Fire! Fire! 19 Fire!' People were definitely trapped and hearing 20 people scream for help was horrific. 21 "32. The fire brigade were just next to the tower. 22 I think they were spraying the building but the fire got 23 worse so quickly. 24 "33. I knew the phone numbers of a few people in 25 the tower and called my friend Alemishet and also Said.</p> <p style="text-align: center;">Page 70</p>	<p>1 may have messed around with the fridge. I did not see 2 this and don't think he would have done that. I don't 3 know anything about whether there was any work done on 4 the fridge. I have heard that someone packed their bags 5 before leaving and people have said that it was Behailu, 6 but that is not correct. It may have been Almaz Kinfu. 7 "43. I just don't understand why the council would 8 have put the cladding on the building that they did. 9 I saw the fire fighters putting water on the building 10 but it didn't stop, it just carried on burning as though 11 it was a gas had caught fire." 12 Mr Chairman, that's the statement of Elsa Afeworki. 13 There are, as I indicated, some exhibits to it. 14 SIR MARTIN MOORE-BICK: Yes. 15 MR MILLETT: The first exhibit, which will be shown on the 16 screen there now, is the plan of the flat, and she 17 indicates what is where on the plan. This is exhibit 1. 18 You can see that she has indicated that bedroom 1 19 was occupied by Almaz Kinfu, and that she, Elsa, 20 occupied bedroom 2, and she has identified where within 21 bedroom 2 certain items were. You can see going 22 clockwise that there's a TV in the northeast corner of 23 the bedroom, some drawers on the east side, a desk in 24 the southeast corner, a cupboard in the southwest 25 corner, and the bed in the northwest corner of</p> <p style="text-align: center;">Page 72</p>

<p>1 bedroom 2. 2 Then in the living room she's identified that as 3 Behailu Kebede's space, with the sofa in the far west 4 side of the room. 5 In the next exhibit, Mr Chairman, EA/2 -- if I can 6 just ask for that to be shown, thank you -- this is 7 exhibit 2, this is a plan of the kitchen and she has 8 indicated on it, looking clockwise, going from the 9 bottom of the plan, no table or chairs, and then you can 10 see the small fridge and freezer unplugged on the 11 left-hand side next to the window. 12 She identified the windowsill; nothing stood on it, 13 she says. A radiator which she identifies. 14 A mop/bucket in the gap between the fridge freezer at 15 the top there and the window. And then moving on to the 16 right, on the south side of the kitchen, you have the 17 cooker, and next to that the kettle and toaster and bin, 18 and then washing machine, sink, and above the sink, 19 injera pan on top of kitchen cupboard, and then she's 20 identified that with a rectangle. Then the microwave in 21 the top right-hand corner of the plan, the southwest end 22 of the kitchen, just opposite the door as you come in. 23 The third exhibit -- if we could please have that -- 24 is a photograph of an injera pan, an m'tad, that is 25 similar to the one that she has described in her</p> <p style="text-align: center;">Page 73</p>	<p>1 flat for about 3 months. 2 "The flat has 2 bedrooms and I will describe the 3 flat as follows. 4 "Upon entering the front door to my flat there is a 5 small hallway area which leads ahead to a bedroom which 6 is slightly to the left of the corridor in front as you 7 walk through (I will refer to this bedroom as Bedroom 8 1). Following this to the left of bedroom 1 is a 9 cupboard area and to the right-hand side of bedroom 1 10 (next to this bedroom) is another bedroom which I will 11 refer to as Bedroom 2. Next to Bedroom 2 is another 12 room which I will describe as a Sitting Room and this 13 room is next to the kitchen but there is a small wooden 14 type sliding door within the Sitting Room which can 15 connect to the kitchen but this sliding door is usually 16 kept closed. I have drawn a sketch to show this which 17 is exhibited as ELA/2 with all the rooms having windows 18 apart from the bathroom and the separate toilet. 19 "The kitchen is off of the hallway next to the 20 Sitting Room and has a door into it from the hallway 21 area, but also access can be gained between the kitchen 22 and the Sitting Room through the small wooden sliding 23 door as mentioned. I will explain the kitchen in more 24 detail. As you walk into this kitchen from the hallway 25 on the right-hand side is a sink then a washing machine</p> <p style="text-align: center;">Page 75</p>
<p>1 statement. 2 Mr Chairman, that is the entirety of Elsa's 3 statement that she provided to the inquiry, except the 4 bits that I didn't read aloud. But as I say, those are 5 taken as read into the record. 6 We then next go, if we may, please, to her first 7 police witness statement, which is MET00006341, that's 8 the Relativity reference. 9 SIR MARTIN MOORE-BICK: Thank you. 10 MR MILLETT: MET00006341, dated 18 June 2017. 11 It contains partial redactions. 12 Again, although I will be going over ground that can 13 be found in her inquiry statement, it's right that 14 I should read it aloud into the record, Mr Chairman. 15 I'll start five lines down: 16 "This statement I make refers to the late evening of 17 the 13th June 2017 and the early morning of the 18 14th June 2017, when the flat I live in inside Grenfell 19 Tower, London, W11 1TG on fire. I live in Flat 16 on 20 the 4th Floor in Grenfell Tower, London, W11 1TG 21 [redacted] ... It would be around 2 years ago that 22 I moved into this flat. The other people that live in 23 this flat with me are Behailu KEBEDE [redacted] ... 24 "There is a female who is around [redacted] years 25 old -- she is also [redacted] and has lived at the same</p> <p style="text-align: center;">Page 74</p>	<p>1 next to it. Further on from the washing machine is a 2 large fridge freezer -- this is by the far wall area and 3 would be almost directly in front of line of sight if 4 you were looking into the kitchen from just outside in 5 the corridor. There is a gap next to the side of the 6 fridge freezer before the window on the outer wall which 7 leads back towards the direction of the Sitting Room 8 (please refer to exhibit ELA/1 which I have drawn) and 9 towards the sliding wooden door. Just before the wooden 10 sliding door there is another small fridge and small 11 freezer quite near each other -- both this fridge and 12 freezer were unplugged and not in use. There is a 13 cupboard in the kitchen which is close to the sliding 14 wooden door and by where the small fridge and freezer 15 is. 16 "The room next to the kitchen is the toilet and 17 there is a separate bathroom next to this. 18 "On the 13th June 2017, between about 2030 to 2100 19 hours I returned home to the flat and remember having a 20 shower. I did not see or hear anyone else in the flat 21 at that point but I can't confirm if anyone else was in 22 as I don't usually see the woman in the room next to me 23 very much and Behailu sleeps in the Sitting Room. After 24 having a shower I went into the kitchen and made myself 25 a cup of tea and remember using the large fridge to get</p> <p style="text-align: center;">Page 76</p>

<p>1 a slice of bread out. After getting the slice of bread 2 out I went to my room which is Bedroom 2 and went to bed 3 around 2300 hours my bedroom window was closed. 4 "I am a heavy sleeper but at some point I heard a 5 noise which I will describe as a banging type noise -- I 6 thought it may have been a dream at first but as the 7 noise continued I realised it wasn't a dream and 8 remember seeing and hearing Behailu at my bedroom door 9 (my bedroom door was not locked) who was telling me in a 10 loud voice something about smoke. I was still half 11 asleep so I picked up my phone and a material type cover 12 to put over me and started to walk out of my bedroom. At 13 some point I noticed the [redacted] lady from Bedroom 1 14 in the hallway of the flat but I didn't really open my 15 eyes. Behailu was on his phone -- I don't know who he 16 was talking to. I don't remember if the lights were on 17 in the flat or if there was any smoke or fire. I don't 18 remember smelling anything burning. In terms of what 19 I was wearing I wore square pattern pyjama bottoms, a 20 t-shirt, black and white slippers and a white sheet 21 around the rest of me. 22 "After getting past my bedroom door, I remember 23 going out into the hallway of the flat and then going 24 towards the front door to my flat to leave. I can't 25 recall if the front door to the flat was open or closed</p> <p style="text-align: center;">Page 77</p>	<p>1 whole place was on fire. I was in shock, I was 2 shivering and panicking and didn't know what to do and 3 was eventually taken by people to the Red Cross. At 4 some point I've made a phone call to a friend and stayed 5 with her for the rest of the morning. 6 "I would like to inform police that there was some 7 building work that took place at Grenfell Tower, but 8 I am unable to say when this was. My understanding is 9 that the gas and electric were looked at by workmen. 10 "In terms of the large fridge in my kitchen I can 11 say that there were no electrical problems that I know 12 of and this fridge was working Ok." 13 And then, Mr Chairman, there are some exhibits to 14 that statement which can be found as ELA/1, 2 and 3. 15 SIR MARTIN MOORE-BICK: Yes. 16 MR MILLETT: Which I don't need to ask the Trial Director to 17 get up on screen; they are read formally into the record 18 and they can be examined if need be. 19 SIR MARTIN MOORE-BICK: Mm-hm. 20 MR MILLETT: The next and last document for Elsa Afeworki is 21 her third police witness statement. This is Relativity 22 number MET00013021 dated 17 April 2018. It's very short 23 so I shall read it all and it contains no redactions: 24 "I am providing the Police with a statement 25 regarding a number of questions that were asked of me</p> <p style="text-align: center;">Page 79</p>
<p>1 as I was still very sleepy but I made my way out of the 2 flat into the communal hallway area of Grenfell Tower 3 and think the communal hallway lights were on, but 4 I don't remember hearing any alarms from anywhere. Both 5 Behailu and the woman were still in the flat when 6 I left. When I was going through the communal hallway 7 area I don't remember seeing any smoke or any fire at 8 that point but I saw some other people near the communal 9 area to my flat (I didn't recognise any of those people 10 but I was heading to the stairs still half asleep) 11 although I went to the communal stairs which were close 12 to my flat (if you come out of my flat these stairs 13 would be ahead and slightly to the left through a door). 14 Please refer to my sketch which is exhibited as ELA/3 15 "When I got onto the stairs I ran down -- I don't 16 remember if anyone else was on the stairs at this point 17 but I do remember reaching the ground floor and going 18 out of the exit and when I got outside there were people 19 there and fire-fighters and I noticed the neighbours 20 outside (I don't know the names of these people) they 21 said something to me like 'This was from your flat' 22 (referring to the fire). From when I got outside 23 I looked back up towards the tower block and saw on the 24 4th Floor there was a fire at my kitchen window. 25 I remember it wasn't very long (about 5 minutes) but the</p> <p style="text-align: center;">Page 78</p>	<p>1 during my visit to Grenfell Tower on Tuesday 17th April 2 2018. 3 "At approximately half past 3 in the afternoon I was 4 present in flat 16 of Grenfell Tower along with PC Brian 5 SLATER, DC Kate OWEN & Dr Catherine BROADWAY. 6 "DC OWEN asked me the following questions & below I 7 gave the following answers. 8 "- What was stored between the fridge freezer & the 9 kitchen window? 10 "Usually the area between the window & fridge 11 freezer was stored a plastic (red) bucket & a wooden 12 handled mop & mop head. I cannot say if it was stored 13 there on the night of June 14th. 14 "- Were there curtains or blinds at the kitchen 15 window? 16 "There were no curtains or blinds at the window & 17 nothing was stored on the windowsill. 18 "- I was asked about the two small fridges in the 19 kitchen 20 "They were position on top of one another, they 21 weren't being used & were not plugged in. They were 22 positioned under the window in front of the radiator. 23 I cannot recall anything being stored on top of them. 24 "I would like to clarify that the two fridge 25 freezers did work we just didn't use them & they weren't</p> <p style="text-align: center;">Page 80</p>

<p>1 plugged in. I do not know if they were working, we just 2 didn't use them. 3 "- I was asked about the sliding doors that divided 4 the kitchen & living room 5 "I do not know if they were open or closed at the 6 time the fire was discovered as I was asleep in bed. 7 Depending on who was in & what people were doing they 8 could be open or closed. The living room was used as a 9 bedroom so often the doors would be closed. On that 10 night I do not know. I can confirm that no one smoked 11 in the flat. No naked flames i.e. candles or incense is 12 used in the flat. 13 "I have been shown three photos of exhibit MJD/43 14 (Images EMN/12). I can identify this as an injera making 15 machine that was not used for over 2 years and was 16 stored above the kitchen units above the sink. I have 17 shown DC Kate OWEN a number of images of the injera 18 maker." 19 Then she exhibits two photographs, a modern version 20 of the injera maker and a more traditional version of 21 the injera maker, and she says: 22 "I would say this image is 95% accurate as to the 23 one in flat 16. I do not know if it was working or just 24 not used. I don't know if it was bought in this country 25 or bought over from Ethiopia.</p> <p style="text-align: center;">Page 81</p>	<p>1 "I spoke with a friend of Behailu called [redacted] 2 who said to him that a lady has a problem and he asked 3 him to put me there for a while. I had [redacted]'s 4 number on my phone but left it in the flat. [Redacted] 5 worked in Tescos on High Street Kensington. I think it 6 is now closed so he doesn't work there anymore, he now 7 works possibly near Notting Hill Gate, still in Tescos. 8 He is a nice person who is helping me, I was homeless so 9 needed somewhere to live. Behailu said there is no 10 problem you can come and live here, it is God's house. 11 "The flat has two bedrooms, a living room, a kitchen 12 and a bathroom. My room is straight in the front as you 13 go in. When you continue inside there is another room. 14 There is also a kitchen. 15 "The living room and kitchen are near one another. 16 There is also a lady Elsa who lived there when I moved 17 in and still does. 18 "[Redacted] ... They give me some money for food. 19 I did not pay to live in number 16, Behailu let me stay 20 there short term for free. I don't know if Elsa pays. 21 For me Behailu is the owner of the flat. I don't know 22 how long Behailu or Elsa have stayed there for. 23 "On Wednesday morning 14th June 2017 the three of us 24 were there when the fire happened. I am not sure of the 25 time but it was before 1 am. I was sleeping in room by</p> <p style="text-align: center;">Page 83</p>
<p>1 "These were all the questions asked of me." 2 Then you'll see, Mr Chairman, two photographs of 3 modern injera plans. 4 That, Mr Chairman, concludes the evidence in 5 relation to Elsa and from Elsa Afeworki to the inquiry. 6 SIR MARTIN MOORE-BICK: Thank you. 7 Evidence of ALMAZ KINFU 8 MR MILLETT: Then I can move finally to the evidence of and 9 relating to Almaz Kinfu. I begin with her first police 10 witness statement which is Relativity number 11 MET00006350, and it's dated 16 June 2017. It contains 12 a number of redactions which I will indicate as I read 13 through it, as I have before. 14 "I make this statement about a fire in my flat on 15 Wednesday morning 14th June 2017 before 1 am. This is 16 Flat 16 on the 4th floor of a block called Greenfield or 17 Grenfell Tower. 18 "I arrived in the UK in 2009. I had arrived from 19 [redacted]. I came due to employment, I was a 20 [redacted]. 21 "I live in Flat 16 on the 4th floor of Greenfield or 22 Grenfell tower. I am not sure of the name. 23 "It is near to Latimer Road. I have lived at the 24 address about 3-4 months. The [owner] is a man called 25 Behailu.</p> <p style="text-align: center;">Page 82</p>	<p>1 myself as I sleep early. 2 "Before going to bed Elsa [redacted] and the door 3 was closed in the other bedroom. I took some tea in the 4 kitchen and went to my room. I went to bed around 10 pm 5 I think [redacted]. I am not sure if Behailu was in or 6 not as I didn't see him. There was nothing out of the 7 ordinary in the flat at the time. I am not sure of the 8 time but Behailu knocked at the door, I jumped on the 9 bed after he said 'come out come out' to me. I was 10 shocked and said 'what is going on' and he said 'fire 11 fire' and 'fridge fridge'. I heard him calling Elsa 12 too, he was saying 'Elsa Elsa get out'. 13 "There was a smell and smoke, it was dark in the 14 flat when we were trying to get out, but there was light 15 in the corridor. Behailu said the fridge was on fire. 16 I also had a small clothes bag with me, it was packed 17 near to my door as I always kept it there and I grabbed 18 it on my way out. 19 "At that time I didn't see the fire, I wasn't in the 20 kitchen. Behailu was calling the fire brigade and 21 saying 'come on as quickly as you can'. 22 "Behailu was then knocking on every door on the 23 floor after, he was knocking on the neighbours telling 24 everyone to get out. 25 "I don't know any of the neighbours, I was so</p> <p style="text-align: center;">Page 84</p>

<p>1 shocked all I remember was Behailu knocking on the 2 doors. 3 "I heard Behailu calling 999 and asking for help and 4 saying there was a fire, he was also saying 'fridge' and 5 'smoke' on the phone. I am aware to call 999 for help. 6 I don't remember if I have heard Behailu speak English 7 before, I speak to Behailu in my language, Amharic. 8 "Behailu was wearing a white t-shirt. Elsa was in 9 pyjamas, I don't remember what colour, I was shocked. 10 I keep a bag with clothes in my room, I took it outside 11 the flat with me and other people took it down the 12 stairs for me. I didn't see if Elsa or Behailu had any 13 bags or anything else with them. A young male took it 14 down for me and gave it to me at the bottom, I don't 15 know him. 16 "I didn't heard any fire alarm while I was on the 17 stairs. There were lights on the stairs, everyone was 18 running down the stairs. Most of them were frightened, 19 shouting and crying. 20 "People came and we came out of the building and 21 could see fire coming out of the block. 22 "People were shouting and calling one another and 23 making phone calls. It was in minutes that the fire was 24 going up towards the top of the building. 25 "I was grieving when I saw people they were moving</p> <p style="text-align: center;">Page 85</p>	<p>1 room was Elsa's." 2 So that is Almaz Kinfu's police statement. 3 We next go, Mr Chairman, to the statement which 4 Ms Kinfu provided to the inquiry. 5 SIR MARTIN MOORE-BICK: Yes, thank you. 6 MR MILLETT: That is Relativity reference IWS00000457. She 7 signed it under a statement of truth on 25 May 2018 for 8 the inquiry. It contains no redactions and it's quite 9 short, but I shall read it all. 10 "1. My name is Almaz Kinfu and I previously lived 11 at 16 Grenfell Tower. 12 "2. Attached to this statement are a number of 13 documents which are exhibited as AK1. 14 "3. I have had an opportunity to read the statement 15 I gave to the police dated 16 June 2017 and I confirm 16 that it is an accurate account of my recollection of the 17 events of 14 June 2017. I have been asked to produce 18 this additional statement in response to a number of 19 questions asked by the Grenfell Tower Inquiry team. 20 "4. At the time of the fire on 14 June 2017, I had 21 lived in Grenfell Tower for 3-4 months. I shared the 22 flat with Elsa and Behailu. 23 "5. Exhibited to this statement is a document 24 marked AK1 (A) which is a plan of the flat at 16 25 Grenfell Tower. I confirm that I slept in the bedroom</p> <p style="text-align: center;">Page 87</p>
<p>1 at the top of the flats. [Redacted] ... I was crying 2 until morning. Then a person asked me what had happened 3 and I told him the house I was staying with was on fire. 4 He took me by car I said where to, I said to South 5 Kensington as there are people I know there. I went to 6 an old lady I know [redacted] ... 7 "I don't know the man that drove me, the only time 8 I met him was there. He is an old mature person, 9 a black man. I don't know his name, he was outside the 10 building where people were gathering. I wouldn't know 11 how to get in touch with him again. 12 "I didn't see anything else similar happen in the 13 flat before. I think there are two fridges, one Behailu 14 doesn't use. There could be a freezer I don't know. 15 All three of us use one fridge. As long as I have lived 16 at the flat there have been no issues with the fridge 17 before, it was working normally. I don't know where 18 Behailu got the fridge from or how old it was. There 19 are sockets to put plugs into in the kitchen, but 20 I don't know other than that if there are lots of plugs 21 in one socket or anything. 22 "I looked at printouts of exhibits ML/1, ML/2 and 23 ML/3 and they are correct apart from the names on the 24 bedrooms, my bedroom was the one furthest from the 25 living room and the bedroom between mine and the living</p> <p style="text-align: center;">Page 86</p>	<p>1 which is marked 'bedroom 1'. 2 "6. I have been shown a plan of the kitchen in 16 3 Grenfell Tower which is exhibited to this statement and 4 marked AK1 (B). I have marked on that document an 'X' 5 which indicates the position of a small fridge. The 6 fridge was situated under the window. I did not use the 7 small fridge. All of us in the flat used the tall 8 fridge freezer which was to the left of the cooker. 9 I do not remember there being any problems with the tall 10 fridge freezer. 11 "7. In between the fridge freezer and the window 12 was a small space in which we kept a cleaning brush. 13 There was no other furniture or cupboards around the 14 window. I cannot recall anything being kept on the 15 windowsill. 16 "8. I have been shown a photograph which is 17 exhibited to this statement as AK1 (C). This photograph 18 was taken after the fire and it is of an object which 19 appears to be a large pan. I do not remember seeing 20 that pan before the fire and I did not use it. 21 "9. On the night of the fire, I came home and made 22 a cup of tea in the kitchen. I used the kettle. I then 23 went to my room and went to sleep. 24 "10. I was awoken by the noise of Behailu knocking 25 on my bedroom door. I don't know what time it was.</p> <p style="text-align: center;">Page 88</p>

<p>1 Behailu said 'fire, fire, fridge, fridge'. I opened the 2 bedroom door and I could smell something different, not 3 normal air, different. It was like a burning smell and 4 like a chemical smell and I could taste it. I could not 5 smell it in my room when the door was closed. I went 6 into the corridor of the flat and saw smoke. The smoke 7 was near to the front door which is at the other end of 8 the corridor from the kitchen. I could still see the 9 front door. I was shocked and I can't recall if I could 10 see the other end of the corridor near the kitchen. The 11 lights in the flat were off but light was coming in 12 through the front door and everything seemed cloudy. 13 "11. Two firemen came to the flat and they brought 14 equipment with them. 15 "12. I was shocked and didn't know what to do. My 16 suitcase was near the door in my bedroom and I quickly 17 picked it up as I had some clothes in it. I went into 18 the lobby. I don't remember if there was smoke in the 19 lobby. I went to the stairs and saw two firemen go into 20 the flat. I thought perhaps the firemen might be able 21 to put the fire out. I saw people running down the 22 stairs and so I thought I should leave. I had my 23 suitcase with me and a man asked if I needed help. 24 There was a smell on the stairs and I think there was 25 smoke on the stairs.</p> <p style="text-align: center;">Page 89</p>	<p>1 have to make a deduction from that of some 4 minutes and 2 30 seconds. That's certainly the Metropolitan Police's 3 estimate of the deduction you have to make. That would 4 give you a time of 00.56.09. 5 What I'll do as I go through these is to give those 6 adjusted times, but with the caveat that the adjustments 7 are still not absolutely 100 per cent verifiable or 8 verified. 9 So that's the first, and you can see Elsa there on 10 the landing just before the stairs leading down into the 11 lobby outside the boxing club on floor 2. 12 The next one is Mr Kebede in the same position at 13 00.57.59. 14 The next one is Mr Kebede, having just gone down 15 into the stairs with his phone attached to his ear, at 16 00.58.02, as the adjusted time. 17 The next one is a group of people on the landing 18 there and you can see the silver suitcase on wheels with 19 some clothing attached to it and some individuals, and 20 the time adjusted there is 00.58.12. 21 The next one is Almaz Kinfu talking with it looks 22 like the woman who helped her carry it down at the top 23 of the stairs, and the adjusted time for that is 24 00.58.15. 25 The next one is Ms Kinfu standing on the stairs and</p> <p style="text-align: center;">Page 91</p>
<p>1 "13. I have been shown two photographs which are 2 exhibited to this statement and are marked AK1 (D) and 3 (E). I confirm that photograph D shows me reaching the 4 bottom of the stairs. The man in the red top is holding 5 my suitcase as he helped me with it down the stairs. 6 Photograph (E) shows the man handing the suitcase back 7 to me. The timing on the bottom left-hand corner of 8 photograph (E) is recorded as 01.10.51 on 14 June 2017." 9 Now, Mr Chairman, we are then going to go finally to 10 a series of CCTV images taken outside the boxing club 11 which are -- I'll give the reference -- Relativity 12 number INQ00000059, in the series from 59 to 91, so 13 there are a large number of them. I am going to run 14 through these because they show quite graphically the 15 sequence of movements of individuals outside the boxing 16 club at various times. They include the photographs to 17 which Almaz Kinfu has just spoken. 18 Can we start, then, with the first of these which is 19 INQ00000059. 20 Again, so far as the time is concerned, there's 21 an adjustment that needs to be made to the time stamp 22 which one sees on the top right-hand corner. Again, the 23 time stamp is not absolutely precise and therefore will 24 still remain to be finally verified, but you'll see from 25 that one that the time stamp on it is 01.00.39, and you</p> <p style="text-align: center;">Page 90</p>	<p>1 there, Mr Chairman, behind her on the landing you can 2 see the suitcase on wheels upright with some clothing 3 attached to it at the top, and Ms Kinfu is on the stairs 4 with the backpack. The time for that is 00.59.34, 5 including that adjustment. 6 The next one is a very similar photograph taken 7 four seconds later. The adjusted time is 00.59.38 and 8 you can see that she is on the stairs. 9 The next one, if we can go to it, is her sitting on 10 the stairs, and that is 00.59.38. Again, the suitcase 11 is still in situ. 12 The next one is at adjusted time 1.00.10. 13 If we can move to the next one, we have this one, 14 I think, at 1.00.15. 15 Then if we can go to the next one, this is at 16 an adjusted time of 01.01.24, and it looks as if 17 Ms Kinfu has gone back up the stairs and is standing at 18 the top looking down with the suitcase next to her, 19 still in place. 20 The next one is at an adjusted time of 01.01.40 and 21 Almaz Kinfu is sitting at the top of the stairs, and she 22 sits there for some time. Again, the suitcase is still 23 in the same place. 24 The next one is an adjusted time of 01.01.56. She's 25 standing next to her suitcase as somebody passes by her</p> <p style="text-align: center;">Page 92</p>

<p>1 to go down and she remains standing by that suitcase for 2 some time. 3 If we go to the next one, that is at an adjusted 4 time of 01.02.25. You can actually just make out 5 Mr Kebede coming through the front door at the bottom. 6 It's a bit difficult to see but you can. 7 If you go to the next one, please, that's at 8 an adjusted time of 01.02.33, and you can still see the 9 suitcase still in the same position and Ms Kinfu next to 10 it, and just in front of the suitcase you can see 11 an officer of the London Fire Brigade carrying a heavy 12 pack there and another officer on the stairs. 13 If you please go to the next one, that's at 14 01.02.35, adjusted, and you can see that Ms Kinfu is 15 being passed by by the London Fire Brigade and the woman 16 who first helped her with her suitcase. She is still 17 there and the suitcase is still in place. 18 The next one is at 01.02.38, adjusted. You can see 19 officers of the London Fire Brigade disappearing down 20 the landing with somebody holding an object in their 21 hands -- we may have to explore what that is in 22 evidence. But she for present purposes is still 23 standing by her suitcase at the top of the stairs. 24 If you look at the next one, please, the adjusted 25 time for this is 01.02.44 and still Ms Kinfu is standing</p> <p style="text-align: center;">Page 93</p>	<p>1 same position and Almaz Kinfu reappearing and coming 2 back up. 3 If we go to the next one, please, the adjusted time 4 for that is 01.06.18 and Almaz Kinfu reappears and sits 5 on the stairs, as you can see her, clearly waiting for 6 something. 7 Then the next one, please, 01.07.42 is the adjusted 8 time, and you can see her still sitting on the stairs. 9 She's just been passed by somebody -- looks like a man, 10 one can't quite tell -- just going past her, and the 11 suitcase still sitting at the top of the stairs in its 12 now customary position. 13 Next one, please. An adjusted time of 01.09.07. 14 Suitcase still there. The bottom part of the fireman in 15 the top corner. Another fireman going down past 16 Ms Kinfu on the stairs and she's still sitting there. 17 The next one, please. An adjusted time of 01.09.20, 18 and she's now back standing at the top of the stairs 19 with the suitcase next to her, still in its same 20 position. 21 The next one, please, is adjusted time of 01.09.38, 22 where the suitcase has now been lifted by somebody in 23 a red top. This is the person she describes as a male. 24 Almaz is standing next to the suitcase on the left 25 wearing her backpack, and there is somebody with the</p> <p style="text-align: center;">Page 95</p>
<p>1 by her suitcase. 2 If we go to the next one, she's still there. The 3 suitcase is still in position. The time for that 4 adjusted is 01.02.48. 5 If we go to the next one, the adjusted time for this 6 is 01.02.55 and Ms Kinfu is still standing by her 7 suitcase. 8 If we go to the next one, please, the adjusted time 9 for this is 01.02.57, and Ms Kinfu, still by her 10 suitcase, is being spoken to or having a conversation 11 with somebody at the top of the stairs, a lady. 12 If you go to the next one, please. The adjusted 13 time for this is 01.03.01, and she's still at the top of 14 the stairs. 15 The next one is an adjusted time of 01.03.29. 16 Almaz Kinfu remains at the top of the stairs as the lady 17 descends, possibly with somebody else. 18 The next one, which is adjusted time of 01.03.34, 19 Ms Kinfu is still at the top of the stairs with her 20 suitcase. 21 Then the next one, please, she descends the 22 staircase, still leaving her suitcase at the top. The 23 adjusted time for that is 01.04.35. 24 If we go to the next one, this is an adjusted time 25 of 01.05.02, now. You'll note the suitcase still in the</p> <p style="text-align: center;">Page 94</p>	<p>1 male standing behind him. 2 The next one, please. The adjusted time for that is 3 01.09.58, and we can see from that that the London Fire 4 Brigade come up the stairs, and there are four members 5 of the London Fire Brigade there on the landing, and 6 that Almaz Kinfu has just gone down. They can be made 7 out, just in the bottom left-hand corner, as a dark 8 shadow going down the next set of stairs down where the 9 arrow is. 10 Finally, the last one in this series, at an adjusted 11 time of 01.10.13, the group with Almaz Kinfu can just be 12 made out leaving the side door on the bottom-left, where 13 there's a flash of image and a reflection in the glass 14 only. 15 That completes the sequence of images with the times 16 adjusted, subject to the caveat I've given, which tells, 17 in graphic terms, the story of the suitcase, if I can 18 put it that way -- 19 SIR MARTIN MOORE-BICK: Yes. 20 MR MILLETT: -- and Almaz's exit from the tower. 21 Mr Chairman, that concludes the material that I wish 22 to read aloud to the inquiry. 23 There is, next, and finally, a series of references 24 I should give formally to read into the record. I shall 25 do this by reference, if I may, just to a description of</p> <p style="text-align: center;">Page 96</p>

<p>1 it, its date and its Relativity number.</p> <p>2 SIR MARTIN MOORE-BICK: Yes, very well, thank you.</p> <p>3 MR MILLETT: When I've read them into the record formally,</p> <p>4 they are open to the public to view and they go onto our</p> <p>5 website.</p> <p>6 SIR MARTIN MOORE-BICK: Yes.</p> <p>7 MR MILLETT: I start with Mr Kebede's second 999 audio call,</p> <p>8 14 June 2017: MET00014884.</p> <p>9 Next, Mr Kebede's third 999 call audio, which</p> <p>10 I think in fact you heard this morning, and that has</p> <p>11 actually been read aloud, so that's in the record.</p> <p>12 Next is the further witness statement of the Amharic</p> <p>13 translator for the second 999 call, and that is dated</p> <p>14 23 March 2018 and it's MET00012697.</p> <p>15 The next one is a CCTV image of Mr Kebede leaving</p> <p>16 the tower dated 14 June 2017, and the Relativity number</p> <p>17 is MET00000005.</p> <p>18 The next one is photographs from Mr Kebede's phone,</p> <p>19 dated 14 June 2017, which is MET000083340 through to</p> <p>20 83353.</p> <p>21 Can I also read in other CCTV images of Mr Kebede</p> <p>22 leaving the tower selected by the inquiry from footage</p> <p>23 dated 14 June 2017, and those are references INQ0000008</p> <p>24 through to 58.</p> <p>25 Finally, in that series, videos from Mr Kebede's</p> <p style="text-align: center;">Page 97</p>	<p>1 Then we have Mr Kebede's fifth police witness</p> <p>2 statement, which formally speaks to the CCTV footage,</p> <p>3 13 December 2017: MET00008029.</p> <p>4 Then we have the exhibits to Mr Kebede's sixth</p> <p>5 police witness statement, dated 5 April 2018.</p> <p>6 Exhibit 3: MET00012983.</p> <p>7 Exhibit 4, 5 April 2018: MET00012984.</p> <p>8 Exhibit 5, dated 18 April 2018: MET00012985.</p> <p>9 Exhibit 6, 5 April 2018: MET00012986.</p> <p>10 We then have the tenth exhibit to his statement</p> <p>11 dated 5 April 2018: MET00012982.</p> <p>12 I read aloud his eighth witness statement, dated</p> <p>13 25 May 2018, and gave the reference to it. I shall now</p> <p>14 give the references to some of the exhibits to it.</p> <p>15 The first is exhibit 5, 25 May 2018: MET00012985.</p> <p>16 Exhibit 11, dated 25 May 2018: MET00017049.</p> <p>17 Next is 25 May 2018, exhibit 6: MET00012986.</p> <p>18 And then we have an exhibit 3 from the same witness</p> <p>19 statement: MET00012983.</p> <p>20 Finally, exhibit 8, dated 25 May 2018: MET00012988.</p> <p>21 Mr Chairman, would you just give me one moment while</p> <p>22 I consult with Ms Grange.</p> <p>23 SIR MARTIN MOORE-BICK: Yes, of course.</p> <p>24 (Pause)</p> <p>25 MR MILLETT: Ms Grange reminded me rightly that I have not</p> <p style="text-align: center;">Page 99</p>
<p>1 phone dated 14 June 2017, and it's MET000083354 through</p> <p>2 to 83363.</p> <p>3 Then Mr Kebede's first police witness statement</p> <p>4 dated 14 June 2017: MET00007340.</p> <p>5 BEK/1 to that witness statement,</p> <p>6 14 June 2017: MET00005189.</p> <p>7 BEK/2 to that witness statement, 14 June 2017:</p> <p>8 MET00005190.</p> <p>9 The first of Mr Kebede's police interview</p> <p>10 transcripts, 14 June 2017: MET000080581.</p> <p>11 The transcript of his second police interview,</p> <p>12 14 June 2017: MET000080582.</p> <p>13 Mr Kebede's third police interview transcript,</p> <p>14 16 June 2017: MET000080583.</p> <p>15 And then the exhibits to Ms Afeworki's first police</p> <p>16 witness statement, dated 18 June 2017,</p> <p>17 ELA/1: MET00005191.</p> <p>18 Exhibit ELA/2 to the same police witness statement,</p> <p>19 18 June 2017: MET00005192.</p> <p>20 Exhibit 3 to that witness statement, dated</p> <p>21 18 June 2017: MET00005193.</p> <p>22 Mr Kebede's third police witness statement,</p> <p>23 4 October 2017: MET00007339.</p> <p>24 Next is Ms Afeworki's second police witness</p> <p>25 statement, dated 12 November 2017: MET00007934.</p> <p style="text-align: center;">Page 98</p>	<p>1 read in, and I should, the exhibits to Ms Kinfu's</p> <p>2 inquiry witness statement, and I'll give those now.</p> <p>3 They're dated 24 May 2018.</p> <p>4 AK1(A) is IWS00000610.</p> <p>5 In fact, they've all got the same number, I'm glad</p> <p>6 to say, so I don't have to read out endless serial</p> <p>7 numbers.</p> <p>8 SIR MARTIN MOORE-BICK: Good.</p> <p>9 MR MILLETT: I'll repeat it so that everybody is clear that</p> <p>10 they can all be found in the same place. There are five</p> <p>11 of them: IWS00000610.</p> <p>12 Mr Chairman, that concludes the evidence for flat 16</p> <p>13 which I intend to read into the record.</p> <p>14 SIR MARTIN MOORE-BICK: Good, thank you very much.</p> <p>15 That's probably a convenient moment, isn't it?</p> <p>16 MR MILLETT: It is a very convenient moment.</p> <p>17 We will resume, if we may, after the lunch break</p> <p>18 with some very brief evidence from the first factual</p> <p>19 witness to the inquiry, Mr Andrew Bell of the London</p> <p>20 Fire Brigade, who is simply going to put some documents</p> <p>21 into the inquiry record and answer one or two questions</p> <p>22 about them.</p> <p>23 SIR MARTIN MOORE-BICK: Thank you.</p> <p>24 Well, then, we'll break now and resume at 2 o'clock,</p> <p>25 please.</p> <p style="text-align: center;">Page 100</p>

25 (Pages 97 to 100)

<p>1 Thank you. 2 (12.50 pm) 3 (The short adjournment) 4 (2.00 pm) 5 DEPUTY ASSISTANT COMMISSIONER ANDREW BELL (called) 6 SIR MARTIN MOORE-BICK: Yes, Mr Millett. 7 MR MILLETT: Thank you, Mr Chairman. 8 Mr Chairman, I'm going to call the very first of the 9 inquiry's factual witness statements, Mr Andrew Bell. 10 Good afternoon, Mr Bell. 11 THE WITNESS: Good afternoon. 12 MR MILLETT: I think first of all you should be sworn. 13 (The witness affirmed) 14 SIR MARTIN MOORE-BICK: Thank you very much. Are you 15 comfortable standing up? 16 THE WITNESS: Yes, thank you, sir. 17 SIR MARTIN MOORE-BICK: Thank you. 18 Questions from COUNSEL TO THE INQUIRY 19 MR MILLETT: Mr Bell, could we start, please, by your giving 20 the inquiry your full name? 21 A. Andrew John Bell. 22 Q. And your current rank at the London Fire Brigade? 23 A. Deputy Assistant Commissioner. 24 Q. When did you join the London Fire Brigade? 25 A. September 1993.</p> <p style="text-align: center;">Page 101</p>	<p>1 A. It is. 2 Q. It's dated 14 June 2018. Have you read this statement 3 recently? 4 A. Not since I've given it. 5 Q. Okay. And at the time that you gave it, did you think 6 and believe that its contents were true? 7 A. Absolutely. 8 Q. Can you confirm the truth of the contents now for the 9 inquiry? 10 A. Yes. 11 Q. Thank you very much. 12 Now, that statement -- 13 SIR MARTIN MOORE-BICK: Mr Millett, do you want us to be 14 able to read it on the screen? 15 MR MILLETT: No, I think I am happy to let that go formally 16 into the record. If, Mr Chairman, you are happy for me 17 to do that -- 18 SIR MARTIN MOORE-BICK: Yes, it's just that if you wanted us 19 to be able to read the text, in my case at least it will 20 have to be magnified quite a lot. 21 A. Which I believe it has been. 22 MR MILLETT: Very good. I'm content to let you read that to 23 yourself. I am going to proceed on the basis that that 24 as a document is read into the record rather than me 25 reading it aloud or asking you to do so, Mr Bell.</p> <p style="text-align: center;">Page 103</p>
<p>1 Q. And could you just give us, please, a very brief summary 2 of your career to date. 3 A. I joined in 1993 as a recruit firefighter. I stayed 4 with London Fire Brigade in the role of firefighter 5 until 1996. I then transferred to East Sussex Fire and 6 Rescue, where I stayed until 2011. I performed the 7 roles of firefighter through to station manager with 8 that service. I was then seconded to the Fire and 9 Rescue Service National Resilience Team in 2011. 10 I stayed there until 2013, when I rejoined the London 11 Fire Brigade. I then went on secondment again to the 12 National Resilience Assurance Team in 2015, and then 13 rejoined the London Fire Brigade again as Deputy 14 Assistant Commissioner in October 2016. 15 Q. Thank you very much. 16 Now, you have provided to the inquiry a witness 17 statement, I think -- 18 A. Yes. 19 Q. -- which you should have in front of you. 20 A. I have. 21 Q. The Relativity reference to that document is LFB0003588. 22 We have it there in the screen. 23 If you could please turn to the second page of that 24 document, you will see a printed statement of truth with 25 a signature in it. Is that signature yours?</p> <p style="text-align: center;">Page 102</p>	<p>1 SIR MARTIN MOORE-BICK: Yes. 2 MR MILLETT: So that is the statement. You've confirmed 3 it's true, so it's in evidence. 4 Can I start by asking you about your current role at 5 the London Fire Brigade. What is that? 6 A. My current role is the head of the Grenfell Tower 7 Investigation and Review Team. 8 Q. Otherwise known as GTIRT? 9 A. Absolutely. 10 Q. Can you just tell me, please, who commissioned that 11 investigation? 12 A. The London Fire Commissioner, Dany Cotton. 13 Q. Dany Cotton. When did she commission it? 14 A. In the days after the Grenfell Tower fire. 15 Q. And when did you start your work? 16 A. Probably about a week afterwards, but the formal 17 establishment of the team was the beginning 18 of July 2017. 19 Q. And how independent is it from the day-to-day work of 20 the London Fire Brigade? 21 A. Completely independent. So I have an independent role. 22 I report to no one. I have -- I work outside of the 23 normal business processes and governance arrangements 24 within London Fire Brigade in order to maintain that 25 independence.</p> <p style="text-align: center;">Page 104</p>

26 (Pages 101 to 104)

1 Q. Thank you.
 2 In summary, what work has your team done so far, to
 3 date?
 4 **A. So far, to date, the establishment of the team and the**
 5 **terms of reference, which includes that establishment of**
 6 **independence. Agreeing the ways of working, both with**
 7 **yourselves as the inquiry and Operation Northleigh, the**
 8 **Metropolitan Police's criminal investigation, and we**
 9 **have protocols with them around the handling of**
 10 **witnesses and information sharing with them. So the**
 11 **gathering and collating of evidence we believe to be**
 12 **relevant to both your inquiry and the criminal**
 13 **investigation and the completion of our own statutory**
 14 **duty to review our own performance, and then the review**
 15 **of that evidence has been ongoing since July.**
 16 Q. Thank you very much.
 17 Now, it is or is about to be a matter of record that
 18 you produced the operational response document or report
 19 dated 24 May 2014.
 20 The Relativity reference to that is LFB00001914.
 21 Can I just ask you one or two questions about that
 22 document, Mr Bell?
 23 **A. Of course.**
 24 Q. In summary, what does that document do?
 25 **A. So that document aims to produce a factual account of**

Page 105

1 **what we understand, based on the evidence we have**
 2 **available at this time, as to what happened on the**
 3 **night; both the actions of the firefighters and**
 4 **commanders on the ground and the decisions behind those**
 5 **actions.**
 6 Q. Who compiled this document?
 7 **A. I have a team of investigators working to review the**
 8 **evidence and they have produced the timeline which has**
 9 **informed that document.**
 10 Q. Have you reviewed this document yourself?
 11 **A. I have.**
 12 Q. Have you sought to satisfy yourself that its contents
 13 are true and accurate within the allowances for error
 14 expressly referred to in it?
 15 **A. I have.**
 16 Q. Did you sample test the times and events described
 17 against the source data referred to in it?
 18 **A. Yes.**
 19 Q. And having done that, Mr Bell, how confident are you
 20 that the facts described in it, allowing for the
 21 tolerances described in it, are true and accurate?
 22 **A. They are true and accurate, but I would ask the chair**
 23 **and yourself to note that we have used CCTV footage**
 24 **extensively to corroborate the evidence that is provided**
 25 **in witness and contemporaneous notes. There are**

Page 106

1 **a number of individuals that have reviewed that CCTV**
 2 **evidence and, in terms of the timing, you might**
 3 **understand, quite naturally, some of those have applied**
 4 **a different time as to when they're describing or**
 5 **applying a time to a series of events. Some of them**
 6 **would have done that right at the start of that series**
 7 **of events that are described, some of them would have**
 8 **done a few seconds into that series of events.**
 9 Q. Very good.
 10 So can I see if I've understood your evidence. The
 11 time stamp -- is this right? -- listed or identified in
 12 the operational response report for each event, where
 13 it's identified to relate to a CCTV snapshot and
 14 a particular camera, that time is the start of
 15 a sequence -- is this right? -- in which the facts
 16 described occur?
 17 **A. Generally it will be the start of that sequence, but**
 18 **that may be a few seconds here and there. In terms**
 19 **of -- the document itself is produced -- is to help me**
 20 **deliver my own statutory duty to review my own**
 21 **performance, or the organisation's own performance. The**
 22 **forensic analysis that I know that you are now applying**
 23 **to it may mean that some of those series of events may**
 24 **be a few seconds out.**
 25 Q. Very good.

Page 107

1 Who verified the identity of each firefighter on the
 2 CCTV footage where they are identified in the ORR?
 3 **A. So that's generally done through team knowledge. The**
 4 **team will review that CCTV footage extensively. Through**
 5 **their own knowledge they are able to generally identify**
 6 **the majority of firefighters.**
 7 **In order to assure ourselves around that, they then**
 8 **go through a series of checks. So they actually check**
 9 **our staff attendance recording system to check that**
 10 **individual actually was on duty. We then check through**
 11 **the short incident report to make sure that that**
 12 **individual and the appliance was actually on scene at**
 13 **the time. And then every member of London Fire Brigade**
 14 **has a ID photo. They have all been collated and stored**
 15 **as crews and then we check the provisional**
 16 **identification of that individual against their ID**
 17 **photo.**
 18 Q. I see.
 19 Was the individual CCTV snapshot referred to in the
 20 report actually verified with each firefighter where the
 21 firefighter is described?
 22 **A. No.**
 23 Q. In general terms, Mr Bell, how reliable would you say
 24 the identification is?
 25 **A. I'm confident that in most cases it is absolutely**

Page 108

1 **reliable.**
 2 Q. Thank you.
 3 **A. Where we are not sure around, we haven't named that**
 4 **individual, and you'll see that in the report. We**
 5 **describe a firefighter rather than naming an individual**
 6 **because that's we're not sure 100 per cent of the**
 7 **identification of that individual.**
 8 Q. Yes.
 9 Now, you mentioned a moment ago something called the
 10 short incident log.
 11 **A. Yes.**
 12 Q. Which is a document which has been disclosed recently,
 13 and it's under Relativity reference MET00013830.
 14 Could you just describe that document and explain
 15 what it is?
 16 **A. So the short incident report is, as you might expect,**
 17 **a summary of the long incident report. Even the short**
 18 **incident report for Grenfell Tower numbers nearly**
 19 **400 pages; the long incident report is many more. The**
 20 **short incident report reduces or removes a number of**
 21 **system-generated logs, and I have some examples here if**
 22 **that's helpful to you.**
 23 Q. Yes, please go ahead.
 24 **A. So system generated logs such as confirmation that**
 25 **actions have been completed, ie the incident turnout to**

Page 109

1 **Golf 36, which would be Hammersmith fire station, for**
 2 **Golf 362, Hammersmith's pump, has been completed.**
 3 **The log of action plans being implemented within**
 4 **control. Various actions are automatically generated by**
 5 **the vision system and the long incident report will**
 6 **record those actions.**
 7 **And then confirmation that the resourcing**
 8 **requirements have been met. Each incident type**
 9 **generates a predetermined attendance, and when that**
 10 **predetermined attendance is actually on scene and**
 11 **confirmed on scene, it will generate a system log to say**
 12 **that the resourcing requirements have been met.**
 13 **Things like that are taken out of the long incident**
 14 **report.**
 15 Q. Just by way of example you gave a moment ago, but we
 16 didn't see on the screen, I wonder if,
 17 Mr Trial Director, you could go to page 8 of this
 18 document.
 19 Mr Bell, I just want to see if I can ask you to
 20 clarify or explain the answer you just gave by reference
 21 to a particular entry.
 22 Now, here on the screen we have, halfway down --
 23 this is page 8 of this document -- under "Appliances",
 24 call sign or C sign G272 and then 271. We see that.
 25 **A. Yes.**

Page 110

1 Q. So that's been blown up. And we see station, "stn",
 2 G27 -- that's North Kensington.
 3 **A. It is.**
 4 Q. And then some information going across the page. If you
 5 could just explain what those entries are for us.
 6 **A. So, as you said, I'll start right at the left.**
 7 **So the call sign is the first three parts of that,**
 8 **so "Golf" is the area where North Kensington originates,**
 9 **27 is North Kensington's station number, and the 1 or**
 10 **the 2 relates to either it being a pump or a pump**
 11 **ladder.**
 12 **The station is replicated again, Golf 27. That's**
 13 **the call sign for the station in general. Status 1**
 14 **means they're mobile and available, or they are**
 15 **available for call.**
 16 **The next one, "Initial", I'm not entirely sure what**
 17 **that means, so I won't try to answer that.**
 18 **"Assigned" is the point where Vision and control**
 19 **operator assigns those individual appliances to**
 20 **an incident.**
 21 **"Mobile" is the time they book themselves en route**
 22 **to that incident.**
 23 **"On scene" is the time they arrive, so status 3.**
 24 **And then the "Available" is when they leave that**
 25 **incident.**

Page 111

1 Q. Thank you very much. We've got status 1 and you've just
 2 described status 3 as on scene. What is status 2?
 3 **A. Status 2 is when they book mobile and are en route to**
 4 **that incident.**
 5 Q. Thank you. Thank you very much. I think we can close
 6 that document down.
 7 Can I ask you, then -- going back to your ORR, the
 8 operational response report.
 9 **A. Yes.**
 10 Q. In there we will see some timings of 999 calls. I just
 11 want to ask you about those. And by reference to
 12 an example, take the first example, which is Mr Kebede's
 13 call of 00.54.29 on 14 June 2017, where it appears in
 14 the ORR, what is that time?
 15 **A. So it might be useful to you if I explain how the system**
 16 **works. All 999 calls originate actually at the BT**
 17 **exchange to start with. BT then moves that call through**
 18 **to a fire and rescue service if that's what the 999**
 19 **caller has asked for.**
 20 **It comes into London Fire Brigade via our integrated**
 21 **communication control system, or ICCS, and that's where**
 22 **the control room operator answers the call, via the**
 23 **ICCS. When that call is answered, the Vision system,**
 24 **which is our mobilising system, then opens a call**
 25 **collection form, which is recorded then in Vision.**

Page 112

1 **The Vision system itself and the data within the**
2 **Vision system is not accessible to all members of London**
3 **Fire Brigade; it's a live system and therefore we don't**
4 **allow access to it generally beyond control and our**
5 **information management team. Therefore we use**
6 **an application called desktop viewer, which is**
7 **accessible across all of our IT system.**
8 **The time the call is answered, that time is recorded**
9 **in Vision and displayed on the BOSS desktop viewer.**
10 **That is the time that we have applied to each of those**
11 **calls.**
12 Q. You called the desktop viewer something, was it BOSS?
13 A. BOSS.
14 Q. BOSS is what? Is that its trade name?
15 A. That's its trade name, I believe.
16 Q. Okay. Okay. Thank you very much.
17 Now, in the case of call handlers, who are operating
18 in the brigade control room --
19 A. Yes.
20 Q. -- how have you identified the control room officer who
21 handles any particular 999 call?
22 A. So within the control room there are a number of
23 individual work stations. When the control room staff
24 come on duty at the start of their shift, they are
25 assigned to a role and they are assigned to a work

Page 113

1 **station. They sign into that work station with their**
2 **own details and Vision then recognises all of the**
3 **actions that come out of that workstation.**
4 Q. Yes, thank you very much.
5 Finally, I just want to ask you about the telemetry
6 information that we have, and there's a schedule that
7 was produced under cover of a statement from
8 Mr Malcolm Stanton.
9 A. Yes.
10 Q. I'll give the Relativity reference for that, and the
11 reference is LFB00003587.
12 It has a number of exhibits and extracts, and I'll
13 just give the Relativity references so that they are
14 read into the record.
15 Mr Bell, I appreciate you won't have any answers as
16 a result of this reading in.
17 The references are: LFB 00003583, 3582, 3586, 3584,
18 3581 and 3585, in all cases preceded by four zeros.
19 So I read those formally into the record, together
20 with Mr Stanton's witness statement.
21 Now, in relation to that, there is the telemetry
22 data, which is LFB00003115, and it's there on the
23 screen.
24 Could you please explain to us what that
25 document is.

Page 114

1 SIR MARTIN MOORE-BICK: Before you do, Mr Bell, I wonder
2 whether it would help us if we could see at least
3 a section of it rather larger so that we can follow your
4 explanation. I think we now have it, actually.
5 MR MILLETT: That's excellent.
6 SIR MARTIN MOORE-BICK: That's splendid.
7 MR MILLETT: We may have to move across the page,
8 Mr Chairman, as it's a spreadsheet.
9 A. So as part of our collection and collation of data, that
10 has involved retrieving the electronic data stored
11 within each individual BA set, or breathing apparatus
12 set, of which we took the data from over a thousand
13 breathing apparatus sets, and a number of entry control
14 boards, which incorporates a telemetry system.
15 Each set of data that comes from each individual
16 said is collated, and sitting behind the spreadsheet
17 that we're looking at now are a number of individual
18 records, and this document is a summary of those
19 individual records produced together and, as you'll see,
20 it's in half an hour time slots. But it replicates the
21 individual and relevant data from the collection from
22 each individual breathing apparatus set.
23 SIR MARTIN MOORE-BICK: So each set has a separate
24 identification number?
25 A. Yes. Yes, which is shown on the left.

Page 115

1 SIR MARTIN MOORE-BICK: And you can tell which station it
2 was operated from?
3 A. We can do at the time. So that has taken some
4 investigation. So each set is identified as either
5 standard duration breathing apparatus, which is shown in
6 column A. Each one of those sets then has an individual
7 number. Those sets don't necessarily stay with
8 a station for eternity after they're issued there; they
9 go back to a central place for servicing. But a record
10 is held within the protective equipment group who do
11 that servicing as to where that set is located at the
12 time. And that station -- each of these individual sets
13 has a hard-copy BA logbook with it, and as part of the
14 data retrieval, not only do we download the electronic
15 data, but we also took photographs of the individual
16 logbook and that data helped us identify where each set
17 and confirm where each set was located in terms of the
18 station.
19 SIR MARTIN MOORE-BICK: Would it be helpful to go right
20 across a particular line?
21 MR MILLETT: Yes, exactly. If you could just show us the
22 next section. I am going to go left to right within the
23 spreadsheet.
24 If we go back to the original left-hand column, then
25 we have the station -- there we go -- SDBA stands for?

Page 116

1 **A. Standard duration breathing apparatus, and further down**
 2 **your document you'll see the ones that are coloured**
 3 **orange are denoted EDDBA, which stands for extended**
 4 **duration breathing apparatus. The second column is the**
 5 **individual serial number of that breathing apparatus**
 6 **set.**
 7 Q. Then you have the station, if known, then the wearer, if
 8 known, and could you please explain the different colour
 9 bands for each of the pairs of wearers or groups of
 10 wearers that we see as we go down?
 11 **A. So that is a piece of work that's been done not by the**
 12 **BA analyst himself but by my operational response**
 13 **investigation team, and that is to denote the individual**
 14 **teams. So, for example, there Batterbee and Brown are**
 15 **identified as a team of two who went in. If you look**
 16 **further down two columns to rows 23, you'll see there**
 17 **there is a crew of five starting the Wolfenden and**
 18 **ending with Gallagher, and those colours are only to**
 19 **identify those individual teams.**
 20 Q. So where they are linked by colour, they have been
 21 committed as a group?
 22 **A. As a group.**
 23 Q. From the bridgehead?
 24 **A. That's it.**
 25 Q. Thank you.

Page 117

1 And the next column across -- just take this very
 2 quickly -- "Vehicle charger disconnected", what does
 3 that tell us?
 4 **A. So that is the point that the BA set is removed from its**
 5 **housing within the appliance, and that is captured on**
 6 **the electronic data system held within the bodyguard**
 7 **unit on the individual BA set.**
 8 Q. Very good. And where, as we see for Christopher Dorgu,
 9 its in red, can you tell us what that is?
 10 **A. So that will be one of the -- that will be an anomaly**
 11 **and you would have to ask Mr Stanton to explain that**
 12 **anomaly, but there are, as you might imagine, in any of**
 13 **these types of technical systems certain anomalies that**
 14 **will arise.**
 15 Q. Very good.
 16 Moving further across the page to the right-hand
 17 side, if we look at column G, "Switch-On (Button)" is
 18 I think probably self-explanatory?
 19 **A. Yes, that is at the point where if you press the**
 20 **left-hand button on the bodyguard, that will switch on**
 21 **that bodyguard unit.**
 22 Q. Right. Then could you explain the next column coloured
 23 in I suppose green, khaki green, "Tally out". What does
 24 "Tally out" mean?
 25 **A. So the tally -- so there is an individual tally for that**

Page 118

1 **breathing apparatus set. The tally fits into the**
 2 **bodyguard unit, and when an individual is committed into**
 3 **the hazard area, the tally is removed from the bodyguard**
 4 **unit, which arms the bodyguard unit and is then placed**
 5 **within an entry control board. That time that you see**
 6 **there highlighted in green is the time that that tally**
 7 **was taken out. So that would've been at the time the**
 8 **individual got to the bridgehead and reported to the**
 9 **entry control officer.**
 10 Q. Right. Then initial pressure is -- can I go back and
 11 ask a question on "Tally out"?
 12 **A. Yes.**
 13 Q. So "Tally out" would be the time you say he reports to
 14 the entry control officer?
 15 **A. It would be the exact time he removes the tally from the**
 16 **bodyguard unit. So that should be in most cases at the**
 17 **point he arrives at the bridgehead and goes to the entry**
 18 **control officer, because the bridgehead will be within**
 19 **what we call a safe air environment, so he doesn't**
 20 **require respiratory protection at that point.**
 21 Q. Just to be clear, that's not the time, is it, that the
 22 BA wearer either goes under air or leaves the
 23 bridgehead?
 24 **A. No.**
 25 Q. Right.

Page 119

1 Let's move across the page to column I, "Initial
 2 pressure". That's probably self-explanatory, but --
 3 **A. So at the point it removes the tally and arms the**
 4 **bodyguard and the BA set is switched on and charged with**
 5 **air, that is the pressure that is recorded within the BA**
 6 **set at that point.**
 7 Q. Thank you.
 8 Then column J, "Logged onto ECB", could you please
 9 explain what that is?
 10 **A. So that is the point that the tally, having been removed**
 11 **from the bodyguard, is placed into one of the slots in**
 12 **the entry control board and the telemetry signal between**
 13 **the BA set and the entry control board is established.**
 14 Q. And is it fair to say that, in most cases, that is
 15 within a few seconds or a minute, perhaps, of the tally
 16 out?
 17 **A. Yes.**
 18 Q. And where there are differences, we will have to explore
 19 those.
 20 Then you have column K, "Highest breathing rate".
 21 **A. So, as I said, there is an individual record associated**
 22 **with that breathing apparatus wear that has been**
 23 **downloaded. From the information that is downloaded,**
 24 **that is a record there of the highest breathing rate**
 25 **recorded by that individual.**

Page 120

1 And that column has been added for my benefit,
 2 really. Because this was such a large BA deployment,
 3 probably the largest BA deployment we've ever seen
 4 within the UK, it is giving us a set of data and
 5 statistics that I suspect will never be replicated, and
 6 that data will be useful in terms of identifying
 7 physiological impact on firefighters and allow
 8 manufacturers to maybe challenge their assumptions
 9 around what maximum breathing rates can be going
 10 forward.

11 Q. And in terms of rate, could you just explain what the
 12 number represents, if you know?

13 A. So it represents litres per minute.

14 Q. Litres per minute?

15 A. Yes. So the breathing apparatus set -- the nominal
 16 value for breathing is 50 litres per minute. As you can
 17 see there, on occasions that was much higher.

18 Q. If you could then please go to column L, "Tally in (to
 19 bodyguard)", could you please explain what that is?

20 A. So after the firefighter has been deployed and he comes
 21 back to the bridgehead and reports to the entry control
 22 officer, his tally is returned to him and generally that
 23 tally will be immediately placed back into the
 24 bodyguard.

25 Q. And where there's a "Not recorded", what would that tell

Page 121

1 us?

2 A. It shows that the tally when taken from the entry
 3 control board was not immediately put back into the
 4 tally, or the individual, when he got back into safe air
 5 and shut his set down, didn't actually retrieve his
 6 tally. I think that's an indication of the state of
 7 some of the individual BA wearers when they came out of
 8 that environment that they weren't in a position to do
 9 what they would normally do under normal procedures,
 10 which would be to report to the entry control officer,
 11 receive their tally and shut the set down in the normal
 12 way.

13 Q. Right. We'll have to ask them about that.

14 Then column M, "Final pressure", would you just
 15 explain briefly what that is?

16 A. So at the point the BA set is shut down, that is the
 17 pressure left within the set at that point. So they
 18 start off with somewhere between 240 and 300 bar, and
 19 that pressure there is, as you can see -- the top one is
 20 80 bar which, again, is below where we would normally
 21 expect them to come out. So they get an alert at
 22 84 bar, which suggests to them they are getting to a low
 23 pressure position. At 74 bar plus/minus 5 bar they
 24 actually get a low pressure warning whistle that
 25 continually sounds. Normal procedure is for an

Page 122

1 individual to be out of the hazard area by the time they
 2 get to the point of 84 bar.

3 Q. Yes, thank you.

4 Then the next column is N, "End of wear time", could
 5 you just explain how that --

6 A. So that is a point in time where the individual stops
 7 breathing and that gets recorded, so that would be the
 8 point that they remove the mask and close down the set.
 9 So it's the last recorded breath that's taken before the
 10 set is shut down, and that's that point in time.

11 Q. Very good.

12 Then the next one, column O, "Bodyguard switch
 13 off/tally", what's that?

14 A. So that is just switch off the bodyguard unit by --
 15 there's a button on the right of the unit and you press
 16 that button and that is the time that the bodyguard has
 17 been switched off.

18 Q. Right. And then column P, "Logged off/Modem shutdown".
 19 What's that?

20 A. So that is the point that the BA set has logged off of
 21 the telemetry system, so it's at the point where the
 22 entry control board is no longer talking to the BA set
 23 and recording the data.

24 Q. Where it's not recorded, what can one tell from that?

25 A. That has been where the set hasn't been shut down in

Page 123

1 line with the agreed procedure. So that is probably
 2 where the air supply within the set has not been shut
 3 off at that point and that set has been moved away. The
 4 tally has gone back in, the set hasn't been shut down.
 5 The entry control board continues to try and talk to the
 6 individual BA set. Once it gets out of range, as you
 7 can see there, it would say "Not recorded".

8 Q. Yes. And "Air used" is I think self-explanatory. It's
 9 in bars, isn't it, I think?

10 A. Yes. So that will be from the point -- the initial
 11 amount and a calculation around what the final pressure
 12 was.

13 Q. Until what? Until the end of wear time?

14 A. Until the end of wear time.

15 Q. Then, finally, column R, "Duration of wear", what is the
 16 measure of that duration?

17 A. So that would be the point between they start breathing
 18 under air and then the end of wear time.

19 Q. Very good. Okay, thank you very much.

20 Just for completeness's sake, you mentioned lower
 21 down the document there were different colours for EDBA.

22 A. Yes.

23 Q. Can you just identify where on the screen we see
 24 examples of EDBA.

25 A. So they are coloured orange there. So there we go. So

Page 124

1 **row 39 there through to 43 are identified as extended**
2 **duration breathing apparatus sets, and they are carried**
3 **on specific vehicles within London Fire Brigade.**
4 MR MILLETT: Thank you very much.
5 Mr Bell, thank you very much indeed.
6 Mr Chairman, I don't have any further questions for
7 Mr Bell, unless you have.
8 SIR MARTIN MOORE-BICK: No, I have been asking mine as we
9 went along, so that's fine.
10 Thank you very much indeed for coming to give your
11 evidence.
12 MR MILLETT: Thank you, Mr Bell.
13 Mr Chairman, that concludes the evidence for the
14 day.
15 SIR MARTIN MOORE-BICK: All right.
16 MR MILLETT: I'm in your hands as to where we go next. Our
17 next witness is Mr Dowden, who we're proposing to take
18 on Monday morning.
19 SIR MARTIN MOORE-BICK: Yes. Would you like to break there?
20 Is that going to be the most convenient course to take?
21 MR MILLETT: Yes, thank you.
22 SIR MARTIN MOORE-BICK: All right.
23 Well, we'll have a rather early finish for the day,
24 but there are other things that people can do.
25 So we'll break now and we'll resume on Monday

Page 125

1 morning.
2 MR MILLETT: Monday morning.
3 SIR MARTIN MOORE-BICK: At 10 o'clock, unless otherwise
4 advised.
5 MR MILLETT: Yes, please.
6 SIR MARTIN MOORE-BICK: Good. All right, thank you very
7 much.
8 (2.40 pm)
